WELCOME

The University of Glasgow has been changing the world for 570 years. Over the last five centuries, the University of Glasgow has pushed the boundaries of possibility. We've fostered the talents of seven Nobel laureates, two UK Prime Ministers and Scotland's First Minister. We have always been at the forefront of innovation, and our past achievements inspire our current world changers.

With over 30,000 students, the University is a melting pot of ideas, ingenuity and innovation. It is housed in one of the most stunning campuses in the UK and in a city that matches the University in dynamism and vibrancy. We know we offer a unique student experience and we welcome you to find out for yourself.

Excellent transport links to the world

Glasgow International Airport (20 minutes from campus) combined with Glasgow Prestwick International Airport and Edinburgh Airport (both less than one hour away) service direct flights from many key international hubs including London, Amsterdam, Paris, New York, Toronto and Dubai.

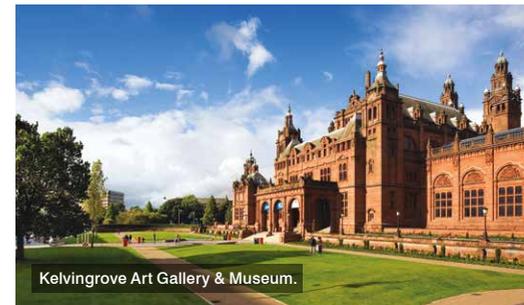

OUR LOCATION

Glasgow provides the ideal base from which to explore the length and breadth of the country. Known for its stunning landscapes, rich history and warm, welcoming people, Scotland is a passionate and innovative country. From spectacular castles to world-renowned festivals, there are plenty of attractions to experience.

GLASGOW HAS BEEN VOTED THE WORLD'S FRIENDLIEST CITY

(Rough Guides 2021)

Ashton Lane, a lively cobbled lane next to the University which is packed with bars, restaurants and a cinema.

Kelvingrove Art Gallery & Museum.

Glasgow has been named among the best 100 cities in the world (Best Cities, 2020).

PEOPLE MAKE GLASGOW

West End

The University's main campus is nestled within Glasgow's cosy and cultural West End, home to cosmopolitan Byres Road and the Instagrammable Ashton Lane. Both of these are great spots to explore, with plenty of student-friendly bars and restaurants.

Shopping

Glasgow is a shopper's paradise, with the city catering for all tastes and budgets. From the biggest high street brands to vintage wares, from one-off speciality stores to exclusive designer gear – you will find it all in Glasgow.

Museums and art galleries

Glasgow has over 20 fantastic museums and galleries, where visitors of all ages can enjoy one of the richest and most varied collections in Europe. In fact, Kelvingrove Art Gallery & Museum recently featured in *Lonely Planet's* Ultimate Travel List 2020.

Parks

With a name meaning "Dear Green Place" in Gaelic, the city has over 90 parks and gardens to explore, with many housing some of the city's top attractions. So whether

you're looking for a tranquil spot to study, a beautiful viewpoint of the city, or even somewhere to spot a Highland cow, you'll be spoilt for choice.

Sports

Glasgow is synonymous with sport. It is the European Capital of Sport in 2023, becoming the first city to take the title twice. Also in 2023, the city is gearing up to host the UCI Cycling World Championships.

See peoplemakeglasgow.com.

The SSE Hydro is the world's fourth-busiest arena venue (Pollstar).

Music and nightlife

As the UK's first UNESCO City of Music, Glasgow is a place where music is not simply confined to the four walls of venues – it's the beating heart of the city.

From intimate gigs in bars to incredible shows in arenas and city parks, Glasgow is a hotspot for live performance. Attend one of the world-class festivals, dance the night away in an underground club or take a musical pilgrimage on a Glasgow Music City Tour. If you like music, you will love Glasgow.

Eating out

Glasgow has an ever-evolving food and drink scene, with options to suit all tastes and budgets. The Finnieston neighbourhood (next to the University) is considered the city's "foodie quarter" with a brilliant mix of cool, quality and affordable venues. Glasgow is also recognised as one of the UK's most vegan-friendly cities and you can find a range of cuisines from around the world.

GLASGOW IS THE WORLD'S LEADING FESTIVAL AND EVENT DESTINATION

(2019 World Travel Awards)

Camusdarach beach, Arisaig, Scottish Highlands.

Eilean Donan Castle, Highlands.

SCOTLAND IS NOW

Outdoor activities

Scotland's land and coast were made for exploration and adventures. From world-class watersports and walking, to cycling and mountain climbing, the possibilities for getting active in Scotland's magnificent great outdoors are endless.

Beaches

You'll find some of the UK's most spectacular beaches dotted along Scotland's entire coastline. Whether

you decide to take part in watersport activities or just go for a relaxing walk, keep your eyes peeled for marine life in the waters and seabirds flying overhead.

Attractions

Scotland is filled with attractions to suit every taste and budget, including iconic castles, world-class museums and galleries, fascinating heritage sites and beautiful gardens.

Film and TV locations

Scotland has played a starring role on the big and small screen, as the filming location for top films and TV shows including *Outlaw King*, *1917*, *Skyfall*, *Harry Potter* and *The Batman*. In fact, the University itself is frequently used as a filming location and recently featured in several episodes of *Outlander*.

See visitscotland.com.

Knockengoroch music festival.

Our top 5 events in Scotland

Hogmanay

No other nation celebrates the New Year quite like Scotland. Ring in the bells at traditional and unique events like Edinburgh's Hogmanay, Inverness's Red Hot Highland Fling, Stonehaven's Fireballs, Biggar Bonfire and The Kirkwall Ba' Game in Orkney.

TRNSMT Festival

Hosted in Glasgow, TRNSMT is Scotland's biggest music festival. Welcoming 150,000 fans across one incredible weekend, it attracts some of the biggest artists in the world. Previous years have seen the likes of Arctic Monkeys, Radiohead, The Killers, Stormzy, Queen & Adam Lambert and George Ezra perform.

Edinburgh Festivals

Over the summer, seven spectacular festivals take place in Scotland's capital including the world-famous Fringe, the largest arts festival in the world.

Burns Night

Scotland celebrates its National Bard, Robert Burns, every year on and around 25 January. Special events include the Burns An' A' That Festival across Ayrshire but it's likely you'll find "haggis, neeps and tatties" on the menu in most Scottish eateries up and down the country.

Highland Games

Experience Scottish culture and traditions at over 70 events across the country, taking place between May and September.

AN INTERNATIONAL UNIVERSITY

Glasgow is a globally connected university with deep civic roots. We offer a range of opportunities for students to ensure they benefit from a global experience.

An international campus

With over 30,000 students and more than 8,000 staff from 140 countries, the University offers a truly international experience for the whole community. During your time at Glasgow, you can explore new cultures, cultural clubs and societies, and life in the city.

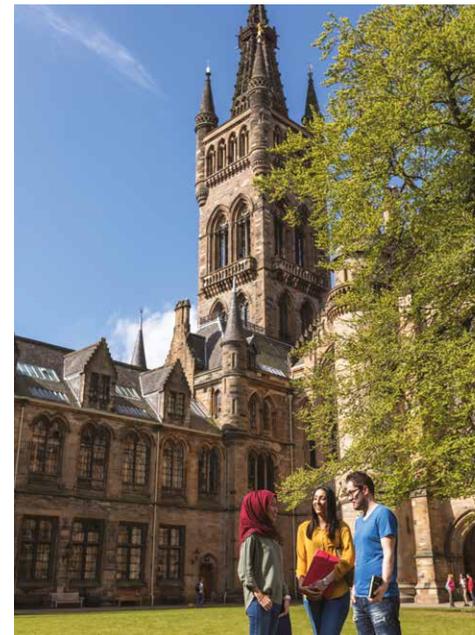

We are also founding members of key international networks U21 and The Guild of

European Research Intensive Universities, and an associate member of CIVIs, a European civic university.

Exchange and study abroad opportunities

Choose from over 180 destinations across the globe. We have partners across Europe and more than 50 international partners in Argentina, Australia, Azerbaijan, Brazil, Canada, Chile, China, Hong Kong, Japan, Korea, Malaysia, Mexico, New Zealand, Singapore, South Africa and the USA.

See glasgow.ac.uk/international.

Partnerships around the world

We have strategic alliances with Columbia University, USA; Leuphana University of Lüneburg, Germany; McGill University, Canada; Radboud University Nijmegen, the Netherlands; The Smithsonian Institution, USA; University of Hong Kong, Hong Kong; and University of Sydney, Australia.

You can study for a Glasgow degree around the world

- University of Glasgow-Nankai, University Joint Graduate School, China, offers a two-year postgraduate dual Masters qualification.
- Glasgow College, UESTC in Chengdu, China, offers dual undergraduate degrees in Electronics & Electrical Engineering.
- The University of Glasgow Singapore offers undergraduate programmes in partnership with Singapore Institute of Technology.

STUDY WITH US: UNDERGRADUATE

Glasgow is one of the world's top 100 universities, which means we can offer you a world-class degree. With a fantastic range of subjects, including both professional and flexible degrees, you should be able to find a degree programme that matches your interests.

CHOOSING YOUR DEGREE

Professional degrees

Degrees in professional subjects (eg Medicine, Law or Engineering) follow a set curriculum to meet the requirements of the relevant professional organisation so that you can enter your chosen profession after you graduate.

Flexible degrees

BSc, MA and MA (SocSci) degrees normally take four years. Integrated Masters (MSci) degrees normally take five years. Degrees that involve a modern language take five years to complete because they include a language year abroad. An undergraduate MA from an ancient Scottish university is equivalent to a BA elsewhere in the UK.

These degree programmes have a flexible degree structure. In most cases, if you have completed a subject in years 1 and 2 you can choose it to be your final degree subject even if this was not the subject you chose on your application.

Joint Honours degrees

Glasgow offers one of the most comprehensive ranges of undergraduate degrees in any university with more than 600 Joint Honours degree options. These allow you to specialise in two subjects for your final degree.

Students study three subjects in year 1 and two or three subjects in year 2. For most Single Honours degrees, there will be one compulsory subject; for most Joint Honours degrees, there will be two compulsory subjects. Single Honours students will select two additional subjects and Joint Honours students will select one additional subject from a wide range of options.

See the table opposite or view our guidance videos for help with your degree subject choice: glasgow.ac.uk/degreestructure.

Benefits of the flexible degree structure

The flexible degree structure allows you to get a broad education as you take additional subjects to complement your chosen degree subject(s). You can try out new subjects you haven't studied before or add a language or other subject to help improve your employability. You are also not necessarily tied to the subject you originally applied for.

Undergraduate flexible degree path examples

Example of BSc Single Honours degree path (BSc with Honours in Chemistry)

(A limited number of Joint Honours BSc degrees are possible on this path with two subjects studied in both years 3 and 4.)

Year 1

Study three different subjects. Please note that you must meet the entry requirements for ALL of your subjects of interest.

CHEMISTRY LEVEL 1 + MATHEMATICS LEVEL 1 + GEOLOGY LEVEL 1

Year 2

Continue two subjects to level 2.

CHEMISTRY LEVEL 2 + MATHEMATICS LEVEL 2

Years 3 & 4

You'll study your degree subject(s) (Single or Joint Honours) exclusively from year 3 onwards.

CHEMISTRY LEVELS 3 & 4

Example of MA Joint Honours degree path (MA with Honours in History & Economics)

(An MA Single Honours is also possible on this path with one subject studied in both years 3 and 4. The MA (SocSci) Joint Honours degree programme follows a similar format.)

Year 1

Study three different subjects. Please note that you must meet the entry requirements for ALL of your subjects of interest.

HISTORY LEVEL 1 + ECONOMICS LEVEL 1 + FRENCH LEVEL 1

Year 2

Continue two subjects to level 2 and choose another.

HISTORY LEVEL 2 + ECONOMICS LEVEL 2 + CLASSICS LEVEL 1

Years 3 & 4

Specialisation in two chosen subjects in the final two years.

HISTORY LEVELS 3 & 4 + ECONOMICS LEVELS 3 & 4

HOW TO APPLY: UNDERGRADUATE

You can apply for an undergraduate programme either through the Universities & Colleges Admissions System (UCAS) or the Common Application. Applicants must apply to the University using only ONE of these systems.

1 Choose your programme

Check out the list of degree programmes listed in the guide or see glasgow.ac.uk/undergraduate.

2 Check the entry requirements

Entrance requirements vary depending on the programme. If you have exceptional A-level or International Baccalaureate grades it is possible to enter directly into Year 2 or follow a faster route advanced entry programme in some degree programmes.

We accept qualifications from around the world for entry to our programmes. To check country specific entry criteria see glasgow.ac.uk/international.

3 Check application deadlines

For most undergraduate studies, the application deadline is 30 June for international students although we recommend applying by the last Wednesday in January. For Dentistry, Medicine and Veterinary Medicine the deadline is the 15 October the year prior to entry.

4 Complete your application

The University of Glasgow accepts applications either through the Common Application or UCAS. Apply either through www.ucas.com or www.commonapp.org.

5 Interviews/auditions for select subjects

An interview will be part of the selection process for: Dentistry, Medicine, Music, Nursing, Teaching and Veterinary Medicine & Surgery.

6 You'll hear from us

We'll be in touch on a rolling basis to tell you if you have been made an offer (conditional or unconditional) or have been unsuccessful.

GLASGOW INTERNATIONAL COLLEGE

If you're an international student but not quite ready to study at Glasgow, our partner institution, Glasgow International College, can help you to achieve the required standards for admission to the University.

Based on the University campus, Glasgow International College allows you to experience student life in Glasgow while gaining the knowledge and skills you'll need to succeed in your degree.

Undergraduate Foundation Certificate

If you successfully complete a Foundation Certificate at the required level, you can progress to the second year of a degree programme in a large number of degrees across the University.

Foundation Certificates are offered in

- Business & Social Sciences
- Science & Engineering
- Arts & Humanities.*

* New for 2022

Postgraduate: Pre-Masters

If you successfully complete a Pre-Masters programme at the required level, you can progress to a Masters programme in a wide array of areas across the University. Pre-Masters are offered in the following subjects

- Arts & Humanities
- Business, Economics & Finance
- Law & Social Sciences
- Science & Engineering
- Medical, Veterinary & Life Sciences.

See glasgow.ac.uk/gic.

STUDY WITH US: POSTGRADUATE TAUGHT

We offer an inspiring range of postgraduate taught programmes that can help you take your understanding of a subject to the next level. If you choose to study for a taught degree at Glasgow you can work towards a Masters degree (eg MSc, LLM, MBA, MLitt), a Postgraduate Diploma or a Postgraduate Certificate including some available online through distance learning. We offer over 300 postgraduate taught programmes in a variety of subject areas:

Arts

Archaeology
Celtic & Gaelic
Classics
Creative Writing
English Language &
Linguistics
English Literature
Film & Television
History
History of Art
Information Studies
Media & Cultural Policy

Relations
Sociology
Urban Studies
See glasgow.ac.uk/postgraduate.

STUDY WITH US: POSTGRADUATE RESEARCH

We are a research-led university where inquisitive minds can develop their ideas. A place where people make discoveries that change the world.

Research Beacons

The Glasgow Research Beacons are cross-disciplinary areas of research excellence, which have attracted major financial and intellectual investment. They bring together inspiring researchers from across the University who are working with other institutions, funders, practitioners, policy makers and charities to address grand challenges that have impact on both a national and international scale.

Our six Research Beacons are

- Precision Medicine & Chronic Diseases
- Cultural & Creative Economies
- Future Life
- One Health
- Addressing Inequalities
- The Nano & Quantum World.

Research programmes

Postgraduate research degrees can generally be divided into Research Masters (MRes) and Doctoral (PhD) degrees. They allow you to undertake a research project under the guidance of an academic supervisor. Students undertaking a research degree are expected to make a significant contribution to knowledge in, or understanding of, a field of study. We welcome applicants with their own research proposal or those looking for a specific funded project title.

Integrated PhD

Our four-year Integrated PhDs combine a taught Masters and research degree and are available in a growing number of research areas. Our ethos of research-led teaching allows students to hone their research ideas and discuss these with potential PhD supervisors during year 1. The structure of an Integrated PhD is as follows.

Year 1: completion of taught Masters level modules

Years 2–4: research degree

See glasgow.ac.uk/research.

HOW TO APPLY: POSTGRADUATE

Applications to postgraduate study are made directly to the University of Glasgow via our online application form. See glasgow.ac.uk/postgraduate/taught.

Taught programmes

The application deadline is towards the end of July for programmes starting in September – please check our website for exact dates and exceptions.

Research programmes

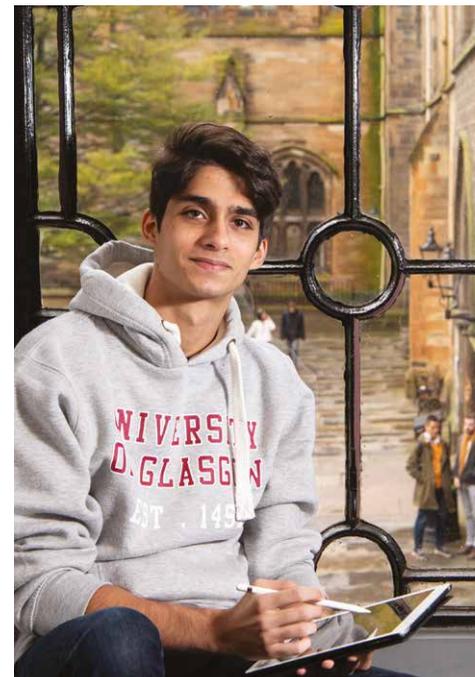

Application deadlines vary across the University and details are located on the relevant programme pages.

All postgraduate research students are allocated a supervisor who will act as the main source of academic support and research mentoring. Before you apply, you should identify a potential supervisor and contact them to discuss your research proposal.

You can search for a supervisor at glasgow.ac.uk/postgraduate/research.

Online programmes

Applications for programmes delivered online can be submitted until the start of the programmes in September. See glasgow.ac.uk/study/online.

Required documents

To apply for a taught postgraduate programme, you need to provide:

- A copy (or copies) of your official degree certificate(s) (if you have already completed your degree)
- A copy (or copies) of your official academic transcript(s), showing full details of subjects studied and grades/marks obtained
- Official English translations of the certificate(s) and transcript(s)
- One reference letter on headed paper
- Any additional documents required for the programme (see Entry requirements on the programme webpage)
- A copy of the photo page of your passport.

To check country specific entry criteria see glasgow.ac.uk/international.

Candidates whose first language is not English must show evidence of appropriate competence in English before finalising their offer.

See glasgow.ac.uk/postgraduate/apply.

SHORT TERM STUDY AT GLASGOW

International Summer School

Our credit-bearing International Summer School is an excellent introduction to studying at a world-renowned university. We have a wide range of courses on offer, including Mathematics, Physics, Functional Anatomy and courses in International Education, Religion and Spirituality, Bagpiping, English Language and many more. Courses range from three to eight weeks.

Summer study allows you to:

- Explore a particular subject in more depth
- Experience teaching from world-class academic staff

- Supplement your studies and gain international experience and credits
- Explore Scotland and meet people from around the globe.

Course fees are inclusive of:

- Tuition
- Accommodation
- Social and cultural programme
- Access to University facilities such as the sports centre
- Airport pick-up on arrival
- Certificate ceremony and transcript.

Find out more and apply at glasgow.ac.uk/iss.

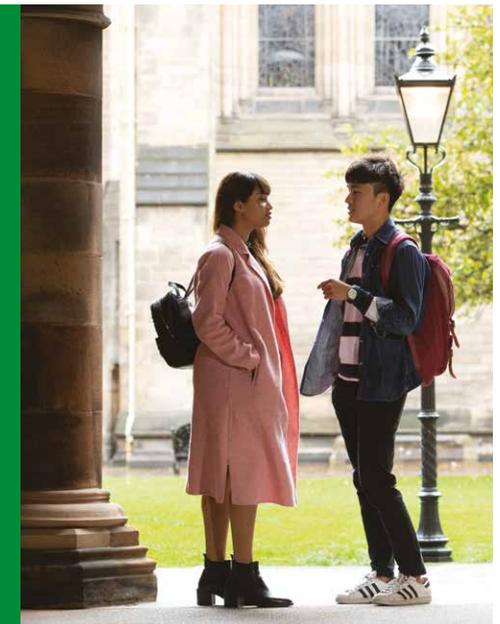

Study abroad and exchange

We welcome over 1,500 visiting students every year. Our study abroad and exchange programmes allow students to study here for either a semester or a full year as part of their undergraduate degree programme.

We offer a range of unique courses with a high degree of flexibility. It is possible to combine classes from across all four of our colleges (dependent upon pre-requisites being met and timetabling), which means that you can pick subjects in

- Arts
- Medical, Veterinary & Life Sciences
- Science & Engineering
- Social Sciences.

Find out more and apply at glasgow.ac.uk/abroad.

Our staff are here to help.

FINANCE & FUNDING

We believe academic excellence should be nurtured and supported. If you want to join us, you'll be pleased to know there's financial help available.

Living costs

Everyone has different spending habits, but as a general guide, we recommend that a single student should allow approximately £12,580 per year, and a married couple should allow a minimum of £20,000. For each child add £5,000 per year.

A guide to your costs	Average cost per month
Accommodation	£550
Food	£180
Clothes	£70
Travel in Glasgow	£40
Laundry/Stationery	£30
Telephone/internet	£40
Entertainment	£120
Total	£1,030
Additional costs per year	
Books	£400
UK travel	£300
Total	£700

Tuition fees

How and when you pay tuition fees depends on the type of degree you wish to study. We provide information on tuition fees and how to pay at glasgow.ac.uk/study/fees.

Scholarships

The University is committed to supporting students and rewarding excellence. We offer a wide range of scholarships for international students to support undergraduate or postgraduate study. These include:

- **Undergraduate Excellence Scholarship:** £7,000 tuition fee discount per year of study (course must be minimum four years in duration)
- **University International Leadership Scholarship:** £10,000 fee discount for Masters programmes
- **Lord Kelvin Adam Smith Interdisciplinary PhD Scholarships:** Full tuition fee waiver, stipend and annual research support budget.

For a full list of scholarships including eligibility, see glasgow.ac.uk/scholarships.

Postgraduate research funding

If you are a postgraduate research degree applicant, the main source of information on funding is the webpage of the graduate school to which you are applying.

To view the latest funding opportunities and scholarships, see:

- glasgow.ac.uk/arts/graduateschool
- glasgow.ac.uk/mvls/graduateschool
- glasgow.ac.uk/scienceengineering/graduateschool
- glasgow.ac.uk/socialsciences/graduateschool.

Visa application

The application fee required to obtain your student visa will depend on your country of residence, please see www.gov.uk/visa-fees for more information.

Healthcare

International students studying in Scotland are eligible for medical treatment under the National Health Service (NHS), including prescriptions – and pay an Immigration Health Surcharge of £470 per year.

YOUR LEARNING ENVIRONMENT

From the moment you start your studies, whether in person or online, you'll be taught by dedicated and passionate academics in a flexible and innovative learning environment.

To help you develop the ability to direct your own learning, you will experience a range of teaching methods.

- Lectures are large sessions led by a lecturer, which give a foundation for gathering information about your subject.
- Tutorials are smaller group meetings led by a tutor, which offer in-depth analysis of lecture information.
- Seminars are larger group sessions that allow for more intensive discussions.

- Practicals or laboratories are hands-on sessions where you will develop subject-related skills.
- Fieldtrips and placements help you develop and extend practical skills with a focus on group projects, data collection, problem solving and presentations.

Library

Open daily with online access 24/7, our 13-storey library has one of the largest collections in Europe. See glasgow.ac.uk/library.

New styles of teaching focus on active learning, where students can interact with one another.

Revolutionising your teaching and learning

We're creating a campus to inspire the next generation of world changers. A 14-acre site beside our main campus is being developed with a planned total investment of £1 billion. Our flagship James McCune Smith Learning Hub is the first building to be delivered through our campus development programme.

The £90m building includes flexible learning spaces and technology-enabled teaching resources. As well as increasing our teaching capacity, this modern study space offers flexible spaces for clubs and societies, conferences and events, becoming the student-focused heart of the campus.

- Round-the-clock access
- Capacity for 2,500 students
- 500-seat lecture theatre
- Interactive teaching spaces
- Cafe.

International student support.

The Fraser Building houses our student support services.

STUDENT SUPPORT

No matter how far you travel to join us, we'll help you feel at home and supported. From application to graduation and beyond, we have a number of specialist teams working hard to make sure that you have everything you need to succeed.

International student support

Our dedicated International Student Support team is here to help you with the practical aspects of moving to Glasgow, such as immigration and the visa process. They also offer advice on employment, finance and welfare while you're here. Our advisers offer practical, confidential and sympathetic help on a wide range of matters as quickly

as possible. They also organise regular workshops and a wide range of activities.

See glasgow.ac.uk/international/support.

International Student Orientation programme

To help you get accustomed to Glasgow, and meet other new international students, our International Student Orientation programme offers an early introduction to the support available. Our evening social event and bus tour give you the opportunity to get to know your fellow students, and our welcome team can meet you on arrival at Glasgow airport too.

Academic support

Improve your English

Our pre-sessional English courses are the best way to bring your language skills up to the required level for your degree course at the University. Pre-sessional courses can last from five to 40 weeks depending on your entry level. You can find more information at glasgow.ac.uk/eas.

If you'd like additional English language tuition once you've started your academic course, we also provide part-time language support classes, which are free of charge if you pay the full international student fee.

Maximising your skills

We have advisers who can help you develop your academic skills during your degree, by offering classes and one-to-one consultations on essay writing, exam preparation and Maths and Statistics support.

See glasgow.ac.uk/leads.

Student services

The University also offers an array of other student services to support you throughout your studies:

- Library, open 19 hours a day
- Counselling & Psychological Services
- Advisers of Studies
- Disability Service
- Learning Enhancement & Academic Development Service
- Careers & Employability.

glasgow.ac.uk/students/supportservices

CHAT TO CURRENT STUDENTS ABOUT LIFE AT GLASGOW

glasgow.ac.uk/askastudent

Wolfson Hall of Residence is located on our Garscube Campus.

ACCOMMODATION

We understand that moving to a new country can be a daunting experience. The accommodation service is here to help you find a suitable place to live and can guarantee a place in our residences (providing you've applied for residence before 22 August). You can apply for accommodation as soon as you have accepted your offer, even if your offer is conditional.

We have seven student residence options for both undergraduate and postgraduate students, in convenient locations within walking distance of our main campus.

Benefits include:

- trained pastoral staff living onsite
- group insurance cover for your belongings
- automatic membership of the University's sport and recreation facilities
- 24/7 internet access incorporating wi-fi in all bedrooms
- managed on-site coin-operated laundries
- single gender occupancy available.

See glasgow.ac.uk/accommodation.

How to apply

- You can apply from February if you have firmly accepted your conditional or unconditional offer.
- The deadline for applications is 22 August.
- Offers are sent from April onwards for students holding an unconditional offer. Students holding a conditional offer will receive an offer of accommodation once their conditions of study have been met.
- Once you have received your offer, you will be required to pay a deposit to secure your place.

For further information see glasgow.ac.uk/accommodation.

50+ SPORTS CLUBS FROM AIKIDO TO WAKEBOARDING

Be active

UofG Sport is the home of fitness, sport and wellbeing during your studies. Our programmes are designed for you and are flexible enough to fit around your schedule.

UofG Sport membership includes access to

- Over 350 online and in-studio group exercise classes each month
- Revolve, our award-winning indoor cycling studio
- Pulse cardio suite with fully interactive equipment
- PowerPlay strength suite, a premier conditioning facility
- 25m swimming pool with six lanes
- Sauna and steam rooms
- Squash courts and sport halls
- Tennis courts, exercise studios, six grass and two synthetic football pitches and a cricket oval.

See glasgow.ac.uk/sport.

STUDENT LIFE

Get involved

Joining student clubs and societies is a great way to learn new skills and make friends. The Students' Representative Council (SRC) offers more than 300 clubs and societies, from Harry Potter to physics and from charity fashion shows to baking, there really is something for everyone. The SRC also hosts over 40 diverse volunteering projects. Explore the possibilities at glasgowstudent.net.

Choose from two unions

Glasgow doesn't just have one student union – we have two. The Queen Margaret Union and Glasgow University Union both host events, run club nights and offer spaces to relax and unwind. There is no shortage of bars and cafes, and they even boast a pool hall and ancient debating chamber. For more information see qmunion.org.uk or guu.co.uk.

FOCUSED ON YOUR FUTURE

We want you to feel inspired, empowered and prepared for your chosen career. At Glasgow, we offer professional careers advice, coaching, resources and support to help you find your dream job.

UofG

Careers support

A wide range of coaching and guidance support for all of your career development needs, including one-to-one career coaching appointments, CV writing and interview technique workshops.

Inspiring events

We run a series of events and fairs with graduate employers, including workshops designed to develop students' skills and graduate attributes.

Internship Hub

The Internship Hub facilitates over 350 paid internship opportunities each year, exclusively for our students. Internships expand your network and enhance your career prospects.

Got a business idea?

We provide support for enterprising students. We offer one-to-one mentoring and access to competitions, or assist during the actual business start-up process.

Connect to our alumni

The Network brings the global Glasgow family to your fingertips with 10,000 alumni in more than 100 countries. Find a mentor, networking opportunities and invaluable careers advice.

Bespoke careers support for research students

We offer specialist support for our research students, including careers workshops and training sessions.

The new Graduate Route will allow international students to remain and work in the UK for two years after they have completed their studies. You can also access our Careers Service for up to two years after you graduate. See glasgow.ac.uk/careers.
