

# GRADUATE CERTIFICATE IN TECHNOLOGICAL ENTREPRENEURSHIP

“The D’Amore-McKim GCTE offers a wide range of courses taught by successful entrepreneurs to teach you how to take an idea from concept to reality. The school also offers one of the best business accelerators for student’s ideas, IDEA, which offers \$10K non-equity funds and mentorship. If you dream about starting your own business, I believe there is no better place to study.”

## A UNIQUE PROGRAM FOR YOUR **UNIQUE IDEA.**

As we have seen throughout history, a technological innovation can have incredible potential. Now, you can access a solid pathway to help tap into that potential with the **Graduate Certificate in Technological Entrepreneurship**. If you are an aspiring entrepreneur, or are helping to bring an innovation to market within an organization, this highly specialized program helps you learn how to commercialize theories you have or products you are developing.

Our certificate program offers you a unique advantage, because Northeastern has both highly acclaimed business and engineering schools. Leveraging these two disciplines is essential as you bring technology innovations to the next level. Add to that a relentless focus on entrepreneurship that is a core pillar of Northeastern. Our campus is an ecosystem for innovation and entrepreneurship, offering support with everything from business plan development to connections with Boston’s entrepreneurial community.

IDEA, our unique  
student-run venture  
accelerator.

Through IDEA, you will have the opportunity to gain the experience

of developing a business from concept to launch as you work with mentors and coaches across the entire start-up phase. This is a hands-on, one-to-one experience, guided by entrepreneurs who have been there and done it. IDEA also offers access to financial support and in-kind resources, like marketing and accounting from other student organizations and corporate partners, and has helped hundreds of Northeastern affiliated start-up founders grow their own businesses.

All of these experiences strengthen your powerful classroom experience, where you will get first-hand insights from seasoned faculty and guest lecturers who are active angel and venture capital investors and who have been founders or senior executives in high-tech start-ups, turnarounds, and high profile ventures.

Further your career or take the next step towards an MBA or other master’s program with this credit-bearing program that allows you to transfer the credits you achieved upon successful completion.

**LET US HELP YOU GET STARTED.**
