**REACH HIGHER**

# THE SKY'S THE LIMIT

Cal State Fullerton alumni achieve Titan-size goals because they expect more from their university and themselves. Push beyond expectations and launch your career.

Actor and director Kevin Costner is a film Titan who earned his B.A. in business before starring in blockbuster films such as “Dances with Wolves,” “Field of Dreams,” “Bull Durham,” and “The Untouchables.”

Dashaun Young is an accomplished Broadway veteran with roles in “Motown the Musical” and “The Lion King.”

NASA Astronaut, Tracy Caldwell Dyson, lived aboard the International Space Station, made two flights logging over 188 days in space.

Titan Christian Colon delivered the game-changing RBI, leading the Kansas City Royals to a World Series win in 2015.

We see the **Titan spirit** in you.

You will find that our faculty research and innovation inspire you. Opportunities broaden your educational experience. A network of classmates and alumni elevate you.

Choose an in-demand university where **TITANS REACH HIGHER.**

## EXPAND YOUR REACH

The Cal State Fullerton experience goes beyond the classroom, with mentors, training and work opportunities to launch your career and inspire graduate studies. Our students and faculty collaborate in research and explore problems together. Students build confidence and skill through hands-on experiences.

In computer engineering associate professor Kirin George’s course, students developed a mind-controlled robotic arm to benefit those afflicted with Lou Gehrig’s disease.

Geology students traveled to Argentina with assistant professor Valbone “Vali” Memeti and conducted fieldwork as part of a research project to better understand volcanic eruptions.

In a 10-day concert tour through France, singers and instrumentalists from our School of Music performed in some of the most beautiful and historic venues in Paris and surrounding areas.

My Cal State Fullerton professors and coursework, as well as my experiences in Washington as a DC Scholar, prepared me for my work as a staff assistant, for studies at the graduate level, and for my ultimate future as a political leader. I use the skills I learned at CSUF every day.

## A PATH TO SUCCESS

Your success is our top priority from Day 1. We help you connect with your college, academically and socially. Programs and support specialists assist with your educational growth and career options.

**Q.** Need assistance with course selection?

**A.** No problem. Our Academic Advisement Center assists students with navigating general education and graduation requirements, utilizing college success strategies, and understanding university policies.

**Q.** Undecided about your major?

**A.** The Major Exploration Program guides you through the selection process.

**Q.** Need financial assistance?

**A.** Our Financial Aid Office currently assists about 67 percent of our students with grants, loans, scholarships and campus employment. Assistance is available from federal, state, university, and private organizations. Our staff is ready to assist you and your family in determining which financial aid plan best fits your needs.

## DIVERSE CAMPUS LIFE

Our rich diversity makes a difference. Enjoy learning from and working with students from many social, economic and cultural backgrounds. Gain valuable perspectives and skills, while enhancing your ability to compete, succeed and lead in a real-world atmosphere following graduation. Last year, we welcomed nearly 3,000 international students from 81 countries, and more than 500 CSUF students studied abroad.

With more than 350 student clubs and organizations, multicultural groups organizations, volunteer service programs, Greek life, club sports, and student leadership, there is always an activity to join and an opportunity for you to build lasting friendships.

Titan Pride is contagious. Join the blue and orange "Stampede" to cheer from the stands or compete on our Division 1 teams. We've captured more than a dozen national championships in seven different sports and are national champions in baseball, softball and dance, and Big West champions in women's and men's track and field, baseball, and women's and men's soccer.

Cal State Fullerton received a \$3 million grant to continue its scholar program in stem cell research and regenerative medicine - training the next generation of scientists.

The \$20 million expansion of the Titan Student Union includes a grand atrium and gathering places for students.

Titan teams earned many national championships and continue a strong tradition of competition in NCAA Division I athletics.

The Gastronome offers healthy, made-to-order dining options and affordable meal plans.

“

Thanks to the Latino Communications Initiative, I worked as an intern at Telemundo, built relationships, networked and made the decision to change my major to something I'm passionate about.

Eric Reséndiz, a senior majoring in journalism

## THE TITAN IMPACT

Titans are job-ready with a strong work ethic. The Cal State Fullerton experience brings real-world work opportunities, invaluable connections and exposure to business, government, entertainment and the arts, all to ensure you land a meaningful job in a competitive field.

Our Career Center and college-based career specialists and programs empower you to chart your academic path, and enhance the skills you need to transition from student to working professional or graduate student.

The College of Communications' Latino Communications Initiative (LCI), offers courses, work experience and certificate programs in Latino-oriented communication studies to prepare an industry-ready workforce.

Graduate students prepare for future careers in education by garnering teaching experience through the Department of English, Comparative Literature and Linguistics, and the Writing Center.

Business students explore marketing and sales careers and grab the advantage in work opportunities offered through the Mihaylo College of Business and Economics' Sales Leadership Center.

The Orange County Bridge (2) Engineering program gives engineering and computer science students invaluable on-the-job training at sites such as NASA's Jet Propulsion Laboratory in Pasadena.

“

As an intern at the Jet Propulsion Laboratory, I gained experience working on cutting-edge research in space technology and seeing how things work in the real world. It helped me understand what the industry was looking for and how I could appeal to companies that I was interested in.

## BUILD YOUR DREAM

Titan alumni lead as top-level talent in every field. They inspire our students as mentors, workshop leaders and instructors.

World-renowned opera star and alumna Deborah Voigt offered an onstage master class in the University's Clayes Performing Arts Center, where she worked with talented student vocalists from the School of Music.

Disney engineer Darrell F. Jodoin '85 (B.S. mechanical engineering) shares expertise from his 25-year career at Disneyland and mentors student engineers. He also helped secure grant funding for senior design projects.

At a campus "Alumni Day" event, Harvard Medical School senior scientist Navid Madani '90, '92 (B.S. biochemistry, M.S., chemistry) inspired future scientists in a seminar on her cutting-edge HIV research, and discussed her mission to promote HIV education and research collaboration in the Middle East and North Africa.

I'm often asked how I became a researcher at Harvard. I tell people it's because of my foundation at Cal State Fullerton and mentorship by Professor Maria Linder. I am so grateful for my undergraduate and graduate school research mentors.
