What does “academic level” mean?

We offer a wide range of programs at KPU, and they all fall into one of the following levels: preparatory, undergraduate, graduate, and vocational. Within these levels, a program may be open intake or limited intake.

PREPARATORY PROGRAM

Post-secondary programs or courses below the undergraduate level, like KPU’s English Language Studies program, fall into this category.

UNDERGRADUATE PROGRAM

Post-secondary programs at the post-baccalaureate diploma level or below are considered undergraduate. KPU offers certificates, diplomas, associate’s degrees, bachelor’s degrees, and post-baccalaureate diplomas at the undergraduate level.

GRADUATE PROGRAM

Post-secondary programs above the undergraduate level. Graduate programs will generally require applicants to have a recognized undergraduate or graduate degree in order to apply. KPU offers graduate certificate and graduate diploma programs.

VOCATIONAL PROGRAMS

Programs that combine skills and knowledge specific to a particular industry or career. These programs blend in-class learning with time on the job working with an employer sponsor.

OPEN INTAKE: These programs are open for admission at every intake (Fall, Spring, and Summer). Students who meet the admission requirements and apply by the application deadline are great candidates for admission.

LIMITED INTAKE: These programs are highly competitive and only admit a select number of students per intake. Not all limited intake programs are offered at all intakes, and application deadlines are earlier than for open intake programs. In general, they’ll also have supplementary admission requirements (such as portfolio reviews, interviews, GPA requirements).

UNDERGRADUATE PROGRAMS
