## Stella Kiss

German-Hungarian  
BSc (Hons) Psychology

Stella had always dreamed of studying in London. When she visited Regent's, she was impressed with the beautiful location and friendly, cosmopolitan atmosphere. She thoroughly enjoys the social life at Regent's and has become a student representative for her year group, consulting students on course issues and providing feedback to Faculty. Stella particularly enjoys the practical experiments involved in her programme, and is thinking of studying for a PhD in future.

*I've learned a lot about how to work with my classmates. I'm also gaining understanding in different areas, such as international relations.*

## Steve Wu Ho

Costa Rican  
BA (Hons) Global Business Management  
with Integrated Foundation

Steve chose to study global management because he is planning to work in the family business after graduation. He also aims to launch his own business in future, with a company that will be recognised around the world. Steve joined the Regent's basketball team and enjoys playing with the team and having fun at the same time. He feels that living independently – having to cook, do his own laundry and managing on a budget – has helped him mature.

Personal ambition, a beautiful location and the opportunities afforded by studying in a world-class city are the reasons that our students are drawn to Regent's.

*From an artistic point of view, London is the place to be. The plurality of cultures at Regent's is a great asset.*

### Alexis Mulard

French

Alexis chose his programme at Regent's because of its broad approach to the film industry. He has learned about all aspects of screen producing, from scripting through to filming, post-production and promotion. He particularly enjoys exploring emerging technologies and specialist areas such as documentary production. Alexis finds London artistically exciting, and enjoys getting out and about to immerse himself in the atmosphere, architecture and languages of the city, where he says he feels right at home.

*I have gained the ability to keep my mind as open as possible and realised that there is no limit to what I can do.*

### Dina Darweish

British

BA (Hons) Fashion Marketing

Dina was fascinated by business, but her real passion lay in marketing. Studying at Regent's gave her the right blend of business, strategy and creativity, with insight into the fashion industry and beyond. She gained plenty of industry experience, with work at London Fashion Week and an internship at Fashion Forward in Dubai. Dina's ambition is to direct and manage fashion marketing projects around the world. She took an extra course in Arabic at Regent's, to enable her to work in the Middle East.
