GAP Year at RMIT University

Immerse yourself in a new and exciting culture with students from around the world!

Would you like to have a taste of what it is like to study in Australia but don't yet know what career path you want to take?

An RMIT GAP year is a one or two semester program available for students who have just finished senior secondary school and have not yet started undergraduate studies.

What can I study?

Option 1

Design your own program

You can design your own program by selecting courses from RMIT University's range of disciplines, as long as you have the necessary prerequisites.

bit.ly/aus-study-abroad

GAP year students are required to select only "GAP Year courses" from the course search tool. GAP Year courses are available in:

- Accounting
- Business, IT and logistics
- Economics, finance and marketing
- Management
- Engineering
- Global, urban and social studies
- Property, construction and project management
- Science

Please note that all courses are subject to availability, capacity and eligibility. All courses can change without notice.

Option 2

Choose a GAP Year Package

Suitable for students who have just finished senior secondary school and have not yet started undergraduate studies.

You can complete one or two semesters.

1. Select 3-4 courses to study in one semester from one of the GAP Year Packages.
2. It is recommended to select a few back-up courses in case there are issues with availability or timetabling clashes.
3. Check the course search tool for availability: bit.ly/aus-coursesearch
4. Check you meet the pre-requisites of each course: rmit.edu.au/students/courses

Please note that all courses are subject to availability, timetabling, capacity and eligibility. All courses can change without notice.
