

ABOUT CAL STATE MONTEREY BAY

Cal State Monterey Bay provides an extraordinary opportunity to learn on a residential campus just one mile from the shores of the beautiful Monterey Bay. Our diverse student body receives personal attention in small classes, plus the many opportunities of a comprehensive university.

- Established: 1994
- Enrollment: approx. 7,000
- Degrees: 24 bachelor's degrees, six graduate degrees, and multiple teaching credentials
- Annual total statewide economic impact: \$270 million

Our Students

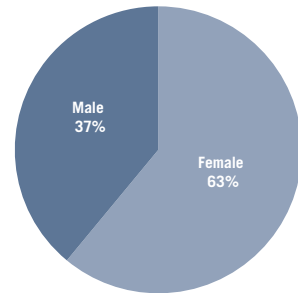

- Nearly 70 percent of our students receive some form of financial aid.
- 57 percent of our students are first-generation college students.
- More than one-third of our students come from the Tri-County Monterey Bay region; one-quarter are from Southern California; and one-third are from Northern and Central California, outside the Monterey Bay region. A vibrant and growing population of international and non-California residents also call CSUMB home.

Our Vision

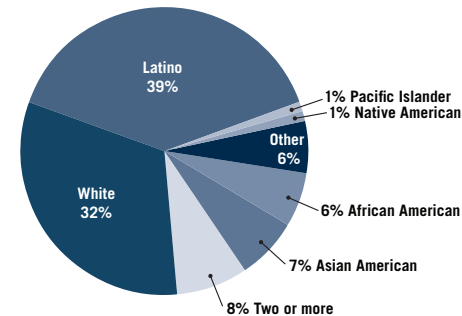

The heart of CSUMB – our ideals, aspirations and values – is outlined in our Vision Statement. The Vision includes our commitment to academic rigor and interdisciplinary learning, to social justice, respect and equal opportunities for all, to sustainability, multiculturalism and collaboration, and to accountability and service to others.

ACTIVELY ACADEMIC

Small classes. Enthusiastic professors. Hands-on group projects that make a difference in the real world. These are just a few of the experiences students have at Cal State Monterey Bay.

Added Value

Students also take their learning into the community through our mandatory service learning program that helps students make the connection between work, academics and social justice.

Intensive senior theses, called Capstone projects, allow students to demonstrate the knowledge, skills and abilities they've acquired at CSUMB.

Music	

LOCATION, LOCATION, LOCATION

Our location is an incredible draw. We're in one of the world's best areas for outdoor recreation and just one mile from the shores of Monterey Bay, the largest marine sanctuary on the West Coast. This means lots of opportunities for environmental study, not to mention surfing, hiking, kayaking, sailing, biking, hanging out at the beach and more.

Incredible Learning Environment

Monterey Bay isn't just for scientists and surfers (though we have our share). The communities that surround our campus offer a wide range of cultural activities, while maintaining a friendly, small-town feel. Plus, all the major metropolitan attractions of the San Francisco Bay Area are just a two-hour drive away.

In short, Cal State Monterey Bay offers an incredible learning environment. From our campus, you can look out on the lush agricultural fields of the Salinas Valley, the historic city of Monterey, and the bay itself – all places where students apply their learning through internships, service learning and research.

A Rich History

Our campus is on the site of the former Fort Ord Army base, which has some perks. For example, the residence hall rooms are much bigger than average because they are in remodeled officer quarters. In keeping with our green philosophy, we've reused whenever possible, so you'll find many bits and pieces of this history all over campus.

STUDENT LIFE

One of the only residential campuses in the CSU, Cal State Monterey Bay provides a rich campus life experience.

The heart of campus is the green-certified Tanimura & Antle Family Memorial Library. It's common to see faculty holding office hours in the coffee shop. Or study groups meeting in skyboxes that jut into the upper levels of the atrium.

The library is also home to the university's academic support services, such as tutoring, workshops and undergraduate research.

When not studying, students can participate in one of more than 100 clubs and groups. CSUMB is home to a world-class 27-hole disc golf course, also the classroom for KIN 141: Disc Golf. Our Disc Golf Club has won the national championship three years in a row.

The university's outdoor recreation program is a gateway for local outdoor adventures. Bikes can be rented for getting around campus and into town.

Intercollegiate athletics at CSUMB is a source of campus pride. Otter Athletics sponsors 13 sports, competing at the NCAA Division II level nationally with conference affiliations in the California Collegiate Athletic Association and Western Water Polo Association.

Otter student-athletes excel both in the classroom and in competition. As students, they annually compile aggregate GPAs and graduation rates higher than the general student body. As athletes, they consistently compete for conference and national titles, with five Sea Otter teams earning berths in their respective NCAA Championship Tournaments in 2016-17.

THE END RESULTS

Thousands of successful individuals have discovered their passion, nurtured their talents and developed their abilities at Cal State Monterey Bay. Here are just a few examples of the success our graduates have gone on to achieve.
