WELCOME to RMIT University Vietnam!

By choosing to study at RMIT University in Vietnam, you're choosing an international-standard education in the heart of the world's most dynamic region.

We're an Australian university with campuses in Ho Chi Minh City and Hanoi, offering globally recognised qualifications in study areas including business, management, tourism and hospitality, information technology, engineering, languages, communication, fashion and design.

The factors that differentiate us include the quality of our staff, the teaching and learning support that we provide and the authentic approach to assessment that focuses on work-related projects.

At RMIT, your experience will be a truly global one. You can choose from 200-plus education partners around the world or RMIT in Melbourne, Australia, for an overseas study experience.

Our strong connections to industry will help you make a smooth transition into the workforce. Our industry partners engage with students in many ways, such as through class projects and internships.

We also provide a wide range of career support services to help you step confidently into your career path

I look forward to welcoming you to RMIT in Vietnam!

Rick Bennett

A quality education

RMIT is a global university of technology, design and enterprise.

One of Australia's original tertiary institutions, RMIT University enjoys an international reputation for excellence in professional and vocational education, applied research and engagement with the needs of industry and the community.

Founded in 2000, RMIT Vietnam brings a world-class education and a globalised study environment to one of the fastest-growing regions in Asia. We offer programs in business and management, science and technology, communication and design, and English.

Among the world's
TOP 150

International learning

The international learning environment at RMIT will help you reach your full potential.

Our inspiring and highly qualified academics come from around the world and teach in English. They are active researchers and creative practitioners with extensive professional and academic experience.

50+

nationalities are represented
among our students at
RMIT in Vietnam

The authentic approach to learning is what sets RMIT apart from other universities. It is exemplified by:

- **Work Integrated Learning (WIL)** activities, which allow you to apply academic learning in 'real-life' situations with an industry partner or community partner organisation; and
- **authentic assessments**, such as individual and group activities resembling the daily experiences faced by industry, instead of paper-based exams.

Watch this video about a WIL project
<http://bit.ly/wilproject>

Elite facilities

Our campuses are equipped with modern classrooms, purpose-built lecture theatres, studios, laboratories and other specialist spaces, providing the perfect setting for you to thrive.

Staying fit while studying is also made easier through access to modern sport and recreational facilities.

- At our Saigon South campus, such facilities include a fitness centre, indoor courts, dedicated tennis and basketball courts, and football fields.
- At our Hanoi City campus, students have access to a fitness centre with the latest training equipment.

RMIT University offers the largest English-language library in Vietnam. Plus, you can access our extensive online library resources.

550,000+

books, periodicals, e-books, journals and videos.

A transformative experience

Vibrant student life

You will have access to **comprehensive learning support services**.

- Get one-to-one learning and language support.
- Benefit from peer-to-peer study advice and group study sessions.
- Attend workshops to develop your academic skills.

For students with disabilities and learning difficulties, dedicated support services aim to provide equal access and opportunity.

Our campuses embrace diversity and inclusiveness, and provide endless opportunities to network and make new friends.

- Choose from **40 student clubs** across a range of academic, arts, cultural, sports and social interests.
- Get involved in **fun activities and events**, such as club days, our International Festival, which celebrates international diversity, and leadership camps.

▶ Watch this video about student clubs
<http://bit.ly/RMITstudentclubs>

Global experiences

Take advantage of the many opportunities we offer to combine your studies with being able to explore the world.

Through our Global Mobility program, you can choose from more than **200 partner universities** to go on exchange for one or two semesters.

Check out the Global Mobility options
<http://bit.ly/RMITdestinations>

Being able to study design at Parsons and live in the heart of New York City was a dream come true. I learnt how to be an even **better creative problem solver** by dissolving walls between different academic disciplines. I collaborated with many new humble and talented friends. I also had a chance to meet the legendary Paula Scher, who is one of my favourite designers. In coming back to Vietnam, I've been lucky to have been offered greater opportunities.

Nguyen Ngoc Tran
Bachelor of Design (Digital Media)
Country: Vietnam

Get a taste for life in Australia through the cross-campus study options at **RMIT University in Melbourne**.

- From your second year onward, you can go on **exchange** for one or two semesters while enjoying the benefit of paying the Vietnamese tuition rate.
- You can start your program in Vietnam and then permanently **transfer** to RMIT in Melbourne, where you switch to paying the Australian rate.

If you're interested in doing a full program at RMIT in Melbourne, see page 61 for more information.

See what it's like to study in Melbourne
<http://bit.ly/exchangetomelbourne>

I went to RMIT in Melbourne for a one-semester exchange. I studied four courses and had a part-time job as a waitress in a Vietnamese restaurant. You are allowed to work 20 hours per week. I feel that I grew a lot. I gained a lot of new friends. Most importantly, I feel that I became more independent. I was very impressed with Melbourne's culture. It is a very peaceful city where you can meet a lot of friendly people. The food is really impressive!

Doan Bao Chau
Bachelor of Business (Logistics and Supply Chain Management)
Country: Vietnam

A path to employment

Prepare for your career

Our careers services and industry links help to make the journey from the classroom to the workplace a smooth one.

- Access careers **counselling and mentoring services**.
- Get help in developing your skills in resume writing and preparing for interviews.

- Utilise the **Job Shop** drop-in service for information about services, workshops and events.
- Join career fairs and networking events to connect with some of the biggest employers in your field.
- Find exclusive employment opportunities through the **CareerHub** website.

Develop your soft skills through the Personal Edge program and get ready for the competitive jobs market.

- Join a **series of training workshops** delivered by industry experts and focused on areas such as creative thinking, communicating with confidence and working across cultures.
- Take part in **visits to industry-leading companies** for unique insights into modern workplaces.
- Build a **portfolio of soft skills** in the Personal Edge app to show prospective employers.

Learn more about Personal Edge
<http://bit.ly/personaledge>

Connect to industry

You will benefit from the strong relationships we have with local and international industry partners.

- Do a **work placement** through the RMIT Flagship Internship program to get hands-on experience in a real work environment.
- Interact with **industry partners** throughout your studies, such as in classroom activities, career fairs and networking events.

Such industry partners include:

- | | |
|----------------|------------------------|
| ▪ ABB | ▪ Ogilvy |
| ▪ Bosch | ▪ Q Industries |
| ▪ Grab | ▪ Samsung |
| ▪ KPMG | ▪ Schneider Electric |
| ▪ Kuehne+Nagel | ▪ Unilever |
| ▪ Mindshare | ▪ Zara – Inditex Group |

When hiring young people, we look for people who aspire to be future leaders in their chosen professions. What sets RMIT students apart is that they graduate with a readymade international outlook and strong sense of purpose. RMIT is a truly international university in Vietnam. RMIT students are armed with strong soft skills as a result from being nurtured by a vibrant campus community.

Ross Macallister

Managing Partner, Consulting Services,
KPMG, Vietnam and Cambodia

75-80%

of students who do an internship get offered a full-time job by their host company

Employability roadmap

In thinking about your journey from being a new student to being a graduate who is ready for the workforce, it can be helpful to break down your time at RMIT into the following three stages:

- **exploring**
in the early semesters;
- **experiencing**
in the middle semesters;
- **engaging**
in the late semesters.

Academic activities

In the early semesters, core courses are designed with two themes: **industry exposure** and **simulation**. These equip you with an overview of the industry and help you to explore your abilities for a suitable career path.

A. Industry exposure

- readings
- guest lectures
- field trips
- case studies

B. Simulation

- simulated projects
- game-based learning
- studio-based projects

Extra-curricular activities

From the first semester, we encourage you to join projects and clubs to develop a sense of belonging to your new environment and to make new friends. Getting involved is a great way to nurture your soft skills naturally.

- My First University Project
- Emerging Leaders Project
- 40 student clubs
- Personal Edge skills development workshops

Early semesters
EXPLORE

Middle semesters
EXPERIENCE

In the middle semesters, **industry engagement** is the main theme in specialised courses. You will engage with real clients and manage projects to address current business challenges.

C. Industry engagement

- real industry projects
- applied research
- global collaboration
- industry mentoring

To get a global experience, you can choose from more than 200 partner universities around the world to go on exchange for one or two semesters.

From semester 4, you can take on managerial roles through many projects and training programs. You will be encouraged to fulfill your own potential and become a creative leader!

- LEAD training
- RMIT Leadership Camp
- lead a student club
- Personal Edge skills development workshops

Late semesters
ENGAGE

Having already gained the necessary knowledge and skills, **capstone projects**, where you put everything you have learnt into practice, are the final step of the learning journey. Before graduating, taking part in the **Flagship Internship** program is a great way to get a taste of the work environment.

D. Capstone project

- final project
- showcase
- exhibition

E. Work placement

- Flagship Internship program

In your final semesters, you can engage with an industry mentor and become acquainted with real workplace environments. It's a chance to get better equipped to take on the professional world!

- Industry Mentoring Program
- jobs on campus
- Flagship Internship
- Industry Networking Night
- Career Fair
- Recruitment Day

Our programs

School of Business & Management

The School of Business & Management has established a world-class reputation for excellence in business and management education, providing high-quality, industry-responsive programs relevant to the national and global marketplace.

The school's programs put students in a prime position to pursue management careers in the local and global companies that are driving change in Vietnam's dynamic and growing economy. They provide foundational courses in business and management before enabling students to focus on their chosen specialisation.

Students have access to state-of-the-art technology and facilities.

- The **Finance Trading Lab** replicates a trading room, allowing students to analyse real-time market information.
- The **Cyber Security and Logistics Laboratory** contains 31 computers and the latest business forensics and security software.

Rahul Ravindranath
Alumnus
Country: India

At RMIT, there were many opportunities to be involved in different communities. My team competed in the HSBC Business Case competition at a national level and in Hong Kong. It was an amazing experience. It was fun to spend a lot of time working with friends.

Bachelor of Business

(International Business)

Program code BP253

Duration Three years

Intakes February, June/July, October

Location Saigon South, Hanoi City

Overview

Understand the complex issues of doing business across national borders and develop the cross-cultural skills required to work with confidence in any organisation with global operations.

This program examines business practices through globally and socially responsible business lenses.

After developing a strong foundation in traditional business and management practices, you will build expertise in areas such as contemporary issues, global trade operations, cross-cultural management, international finance and managing international business responsibly.

Career prospects

Prepare for a range of careers in multinational firms, domestic large and medium firms, or international organisations. Opportunities are available in areas including:

- business consultancy
- diplomatic and foreign affairs
- logistics and transportation
- imports and exports
- international business development
- international trade relations
- international marketing
- operations management
- project coordination
- sales and buying
- tourism and travel

Yu-Hsien (Kevin) Lin
Current student
Country: Taiwan

The education at RMIT is at an international standard. My lecturers come from around the world. The International Business program has taught me many things that I will be able to apply in the future. It has enriched my knowledge about creating businesses that target international markets.

Bachelor of Business

(Logistics and Supply Chain Management)

Program code BP255

Duration Three years

Intakes

February, June/July, October

Location

Saigon South, Hanoi City

Overview

With globalisation and economic integration continuing at a rapid pace, especially in the ASEAN region, companies have high demand for professionals with expertise in logistics and supply chain management.

This program helps to develop your knowledge and interest in contemporary issues central to the logistics and supply chain management industry.

It covers areas including procurement and global sourcing, warehousing, freight and distribution, business operations, supply chain analytics and the management of human and physical resources.

Find more information here
<http://bit.ly/Rmitlogisticsandsupplychain>

Career prospects

- account manager
- import/export manager
- inventory manager
- logistics analyst/supply chain analyst
- purchasing or procurement manager
- logistics/supply chain operations consultant
- supply chain planner/designer
- distribution network planner/designer
- logistics director
- distribution centre manager
- general manager for logistics
- national warehousing manager
- operations manager

Bachelor of Business

(Human Resource Management)

Program code BP276

Duration Three years

Intakes

February, June/July, October

Location

Saigon South, Hanoi City

Overview

Position yourself for a rewarding career of managing and motivating workforces in a range of organisational settings.

This program prepares you to meet standards of professional excellence and become a competitive job seeker in the human resources (HR) field.

The curriculum integrates theory with technical skills and covers all aspects of managing people in organisations, including employment relations, health and safety, personnel wellbeing, HR development, managing performance in organisations, international HR management, and negotiation and advocacy.

Career prospects

Successful completion of the program will help you to obtain employment in a wide variety of occupations such as:

- talent acquisition manager
- human resources advisor
- health and safety officer
- trade union officer
- recruitment officer
- rewards and remuneration advisor
- employee relations consultant
- learning and development officer

<http://bit.ly/RmitHRmanagement>

Scott McDonald
Associate Lecturer
Country: United States

Logistics is about more than moving freight from point A to B. Many elements are involved in the planning and execution of freight forwarding, such as costs, methods and services needed. You will study the foundational theories and practices needed to become sought-after professionals.

Jung Woo Han
Associate Lecturer
Country: South Korea

As technologies are increasingly adapted in operations, HR professionals will continue to play an important role in maintaining high-performing workforces and helping organisations remain competitive. In this program, you will come to see HR as a source of innovation and creativity.

Bachelor of Business (Management)

Program code BP217

Duration Three years

Intakes

February, June/July, October

Location

Saigon South, Hanoi City

Overview

Aligned with trends in the modern business world, this program sets you on the path to becoming a business leader in any industry.

You will learn how to deal with complex issues, lead teams and make business decisions applicable across a variety of organisational structures.

The program provides a broad understanding of key management areas, such as human resources, marketing, finance and corporate sustainability. Plus, you will develop the soft skills employers are looking for.

Career prospects

You will be prepared for many exciting careers in industries including:

- consultancy
- education
- finance and securities
- governance and compliance
- health
- human resources and training
- manufacturing and construction
- marketing and advertising
- operations, planning and logistics
- tourism, travel and hospitality

<http://bit.ly/Rmitbusinessmanagement>

Vu Thi Mai Phuong
Current student
Country: Vietnam

Because of what I have been learning in this program, I am now running my own online business. Studying at RMIT provides a very good start if you want to become a leader who desires to contribute to the society.

Bachelor of Business (Digital Business)

Program code BP324

Duration Three years

Intakes

February, June/July, October

Location

Saigon South

Overview

Succeeding in a digitalised business world requires working professionals and business leaders to have the technical expertise and critical skills to meet the challenge of constant disruption.

This program will prepare you for a career in a digital age in which technological transformation continues to inspire change across all industries.

The curriculum covers key areas of contemporary business and incorporates information technology strategy and governance, financial technology, digital business transformation and creativity, innovation and design.

Career prospects

The program prepares you to work as a professional who is equipped for the 21st-century business world. It puts graduates on a path to pursue leadership and management roles in organisations including:

- government
- non-government organisations
- digital businesses
- digital startups
- financial technology ('fintech') companies

- events, weddings and banquet management
- food and beverage
- guest relations and communications
- marketing and sales
- operations management/planning
- recreation and sports
- special interest tourism
- tour and travel agencies
- tourism planning and promotion

Gillian Ong
Current student
Country: Singapore

A highlight has been the opportunity to work with multinational companies and local businesses. Studying here has provided a more interactive learning environment and a great cultural exchange. Through interacting with my peers, I've learnt about differences in working and learning styles.

Ji Young Suh
Alumnus
Country: South Korea

Vietnam is a country where the tourism and hospitality industry is growing rapidly. In class, I was able to discuss many topics with students from various nationalities. I wouldn't have experienced that if I studied in Korea. I'm so grateful for my university life at RMIT.

School of Communication & Design

The School of Communication & Design is developing creative leaders of tomorrow through interdisciplinary programs in the fields of communication, languages, design and fashion.

With Vietnam witnessing immense growth in demand for talented designers and communicators, it makes for an exciting environment to embark on a creative career and to connect with industry.

The school equips students with the latest technical skills and soft skills, such as cultural awareness and critical thinking, to ensure they are ready to excel in the creative industries. It works closely with industry partners to ensure the programs are aligned with the needs of future employers and to provide internship opportunities for students.

Students enjoy access to state-of-the-art facilities and modern teaching spaces across all the programs.

- Design and Digital Film and Video students utilise a **mixed-reality laboratory and media studios** equipped for video and audio production.
- Soundproof **interpreting booths** are available for those in the Languages program.
- Fashion students use **industry-standard software** for activities including pattern making, grading and marker planning, and 3D virtual sampling.

Bachelor of Communication

(Professional Communication)

Program code BP222

Intakes February, July, October

Duration Three years

Location Saigon South, Hanoi City

Overview

This degree trains multi-talented communicators with cross-platform skills in the fast-growing media and communication sector.

Choose to specialise in either advertising or public relations (PR). Advertisers seek to build the brand of a product or service to change consumer behaviour. PR practitioners seek to inform and influence key audiences to build a positive opinion of an issue or organisation.

Learn about areas including new media and mass media, content production and strategy, research and creative execution.

Career prospects

- account manager
- client services director
- copywriter
- digital content developer
- government and non-government organisation communications
- marketing communication planner
- media advisor or spokesperson
- media/public relations strategist
- online/mobile/social media producer

Find more information here
<http://bit.ly/Rmitvnprofcomm>

Tran Ngoc Quynh Nhu
Alumnus
Country: Vietnam

The best things about studying at RMIT were definitely the lecturers and the high-quality classes. I was offered my full-time job after three months of doing an internship. In the long term, I know that what I have learnt at RMIT will open more doors for me in the marketing and advertising world.

Bachelor of Digital Film and Video

NEW IN 2020

Program code BP325

Intakes February, October

Duration Three years

Location Saigon South

Overview

Pursue your passion for storytelling and content creation in this brand-new program – the first of its kind in Vietnam.

Employers are constantly searching for talented and qualified professionals to create adverts, music videos, web series and features for YouTube, Facebook, mobile and web, plus for small and large screens.

This program covers three strands:

- ▀ how to build a story (screenwriting, directing, producing);
- ▀ how to create content (camerawork, lighting, editing);
- ▀ how to understand narrative (themes and genres).

Career prospects

This program will prepare you for an exciting range of creative careers, including:

- director
- producer
- editor
- digital content developer
- online/mobile/social media creative
- director of photography
- production manager
- screenwriter
- studio manager

Find more information here
<http://bit.ly/Rmitdigitalfilmmandvideo>

Khoa Trong Nguyen
Associate Lecturer
Country: Vietnam

You will get a solid foundation in film and video history, theory and techniques. We're confident that the portfolios you produce through coursework, engagement in competitions, projects and freelance opportunities will open doors for life-long careers in the media space.

Bachelor of Design Studies

Program code BP316

Duration Three years

Intakes

February (SGS only), July, October

Location

Saigon South, Hanoi

Overview

Combine a broad design education with the opportunity to specialise in particular creative streams.

The first year introduces you to a range of foundational skills and theories, such as drawing, typography, composition, colour and computing.

From the second year, you can specialise in two of the following areas:

- graphic design and visual communication;
- fashion design;
- interior design;
- illustration and digital imaging design.

Each specialisation has three learning components – theory, skills and studio project work.

Career prospects

Career opportunities can be found in:

- graphic design
- fashion design
- interior design
- illustration and digital imaging
- creative direction
- 2D motion graphics design

Find more information here
<http://bit.ly/Rmitvndesignstudies>

Bachelor of Design (Digital Media)

Program code BP309

Duration Three years

Intakes

February, October

Location

Saigon South

Overview

Explore your passion for design technology and the 'magic' that it can perform.

New technologies are emerging almost daily, connecting in multiple ways and serving multiple disciplines, including design, visual effects and game design.

In this program, you will become familiar with a range of creative software and hardware. You will learn how to think visually and in a manner enabling you to offer unique solutions to visual problems.

Career prospects

You will be prepared for many exciting careers in areas including:

- media production
- audio/video post-production
- web and information design
- interactive game development
- visual effects
- 2D and 3D motion graphics
- 3D modelling and animation
- event/stage design

Find more information here
<http://bit.ly/Rmitvndigitaldesign>

Martin Constable
Associate Lecturer
Country: Canada

The program is as exciting for the lecturers as it is for the students. Through an intensive and focused program, we see young designers develop the fundamental skills of design practice. This is supported by an introduction to the theoretical and historical basis of these skills.

Eileen Yeo
Current student
Country: Singapore

The program includes a wide variety of fields. Exposure to different media, such as photography, sound and graphic design, gives me the chance to figure out what I'm interested in pursuing further. Doing an internship has given me a feel of the real working environment.

Bachelor of Fashion (Enterprise)

Program code BP327

Duration Three years

Intakes February, October

Location Saigon South

Overview

Combine your flair for fashion and business mindset for a career in the growing fashion and textiles industry.

This program prepares you to become a leader in contemporary fashion enterprises, equipping you with the necessary knowledge and skills in fashion retail management, marketing management and product management.

Deepen your understanding of distribution and retailing, product design and development, fashion branding, the theory and practice of visual merchandising, global and local supply chains, and international and national fashion systems.

Find more information here
<http://bit.ly/Rmitvnfashion>

Career prospects

You will be prepared for a variety of professional roles in areas including:

- designing
- digital textile design
- range coordination
- product development and trend analysis
- buying fashion retail management
- merchandising planning
- outsourcing and supply chain management
- international trade and wholesaling
- visual merchandising
- fashion sustainability
- fashion marketing and communications
- brand management

Bachelor of Languages

Program code BP317

Duration Three years

Intakes February, October

Location Saigon South

Overview

Develop a foundational understanding of language in different cultural contexts and then choose to specialise in Japanese or translating and interpreting, or both via a double major.

The Japanese major is taught by Japanese nationals. You will combine language skills with experiences of Japanese culture and engage with Japanese industry and community partners.

The Translating and Interpreting major is taught in English by leading experts. You will utilise cutting-edge technology, including interpretation booths and specialised software.

Find more information here
<http://bit.ly/Rmitlanguages>

Career prospects

Jobs are available across government, large and small businesses, and NGOs, especially in areas such as:

- sales and marketing
- international business
- travel and tourism
- media and communications
- events and conferences
- copywriting and editing

Nguyen Thuy Yen Nhi (Nancy)
Alumnus
Country: Vietnam

The fashion program has enormously contributed to my career. I met so many amazing people who became friends. The skills and knowledge that I gained have enabled me to identify many professional growth paths and to choose the one that suited my ambitions.

Eriko Yamato
Lecturer, Japanese major
Country: Japan

Vietnamese people are very interested in Japanese culture. Students in the Japanese major say that they want to use the language for their work. They see a lot of Japanese companies and organisations in Vietnam and want to build a connection through language.

School of Science & Technology

The School of Science & Technology's globally recognised programs in the fields of information technology and engineering are focused on innovation. They are designed to develop creative thinkers with the skills, knowledge and motivation to make a real difference in the world.

In information technology, the program prepares students to take advantage of careers in emerging areas such as big data, mobile computing, multi-agent systems and data mining. In engineering, sustainable energy systems, climate change and advanced electronics are all areas that call for forward thinkers who can find solutions to significant problems.

Students have access to laboratories that house cutting-edge equipment and software.

- **Modern computer laboratories** provide access to the latest software, including Windows, Linux and macOS.
- The **engineering laboratories** are fully equipped for developing and testing electrical and mechanical parts and products. Students have access to our Alpha and Baxter robots, and 3D printers.

Bachelor of Information Technology

Program code BP162

Duration Three years

Intakes February, July, October

Location Saigon South

Overview

Develop your IT skills and knowledge to prepare for a career managing technology infrastructure for organisations across a wide range of sectors.

You will become skilled in creating and managing business applications, cloud storage, social media, websites and systems. Also, you will learn to problem solve, support and troubleshoot for the people who use IT.

Study software design, development and testing systems, and learn how to apply your skills to large-scale software application developments.

*This program is certified by the **Australian Computer Society (ACS)**. The ACS is a signatory to the Seoul Accord, an agreement responsible for accreditation or recognition of tertiary-level computing and IT-related qualifications worldwide.*

Career prospects

- software engineer/developer
- web/mobile/application developer
- game developer
- user-interface designer and programmer
- database administrator
- software tester
- cloud engineer
- senior developer/engineer
- project manager
- technical manager/software architect
- IT manager
- chief technology officer

Find more information here
<http://bit.ly/RmitIT>

Bachelor of Engineering (Electrical and Electronic Engineering) (Honours)

Program code BH073

Duration Four years

Intakes February, July, October

Location Saigon South

Overview

Put yourself at the forefront of technological advancement with a degree specialising in the field that has powered the modern world – electrical and electronics engineering.

Electrical engineers devise solutions to generate and use electrical power efficiently and cleanly. They design, implement and maintain electronic devices and systems, including those found in critical infrastructure.

Learn about the generation, distribution and application of electrical energy, with a focus on the design and control of electrical and electronic devices and systems.

*This program has been accredited by **Engineers Australia**, which provides international recognition enabling graduates to practise as professional engineers in 18 countries.*

Career prospects

- product development and design
- application engineer
- integrated circuit design engineer
- electrical engineering
- automation engineer
- project officer/manager
- telecommunications engineer
- technology consultant
- principal engineer
- advanced/specialist engineer
- engineering manager
- engineering director
- chief technology officer

Han Sangyeob
Current student
Country: South Korea

Information technology is one of the world's most in-demand majors. As a student, Vietnam's booming economy means it is the perfect place to plan your future in IT. I've always wanted to make a service or product that can change people's lives. Studying here will help me build a career as a software developer.

Nicholas Panella
Alumnus
Country: United States

My experience at RMIT was enjoyable. I developed a passion for the renewable energy sector and have continued to pursue it at my new job. Living in Vietnam was a great experience. Ho Chi Minh City is an exciting city with a mix of old and new, and people from all over the world.

Bachelor of Engineering

(Robotics and Mechatronics Engineering) (Honours)

Program code	BH123
Duration	Four years

Intakes	February, July, October
Location	Saigon South

Overview

Developments in robotics and mechatronics are reshaping the modern world, with automation and smart devices changing the ways that we do things in all kinds of environments.

This degree will put you at the forefront to understanding the electronic, mechanical and smart control components that underpin the discipline.

By developing a wide range of technical skills and broader soft skills, such as creative thinking, problem solving and communication, graduates of the program become the target of some of the biggest companies.

Career prospects

- mechatronic engineer
- automation engineer
- industrial engineer
- mechanical engineer
- process engineer
- product/project manager
- technology consultant
- principal engineer/technical leader
- advanced/specialist engineer
- engineering manager/supervisor
- director of engineering
- director of technology
- chief technology officer

Mohamed Farshad
Current student
Country: Sri Lanka

In a team project, we created a robotic arm module for amputees. It works well. I came to RMIT in Vietnam to study after friends of mine in Sri Lanka recommended it. It's a really nice place to study. The people, food and climate are nice. These things have made it an easy place to adapt to. It's similar to Sri Lanka!

Bachelor of Engineering

(Software Engineering) (Honours)

Program code	BH120
Duration	Four years

Intakes	February, July, October
Location	Saigon South

Overview

As technology continues to evolve, software engineers are in high demand in trending areas of artificial intelligence, embedded systems, robotics, virtual reality and big data.

Software engineers apply engineering principles and systematic methods to develop programs and operate data for computers and electronic equipment.

You will build expertise in designing solution architectures and developing software and hardware solutions in embedded systems, enterprise application development, mobile device applications and big data analytics.

*This program has been accredited by **Engineers Australia**, which is a signatory to the Washington Accord. This international recognition enables graduates to practise as professional engineers in 18 countries.*

Career prospects

- system analyst
- IT consultant
- mobile games developer
- product development
- programmer
- software engineer
- software developer
- system engineer.
- principal software engineer
- advanced/specialist engineer
- project leader/manager
- director of engineering
- chief technology officer

Leung Pong Yuen Yune Seng
Alumnus
Country: Mauritius

Engineering students have access to the first-class equipment and tools needed to manufacture projects. You will work in a friendly environment alongside local and international students. Vietnam is a very beautiful country. The environment is safe and the local people are friendly.

Admissions

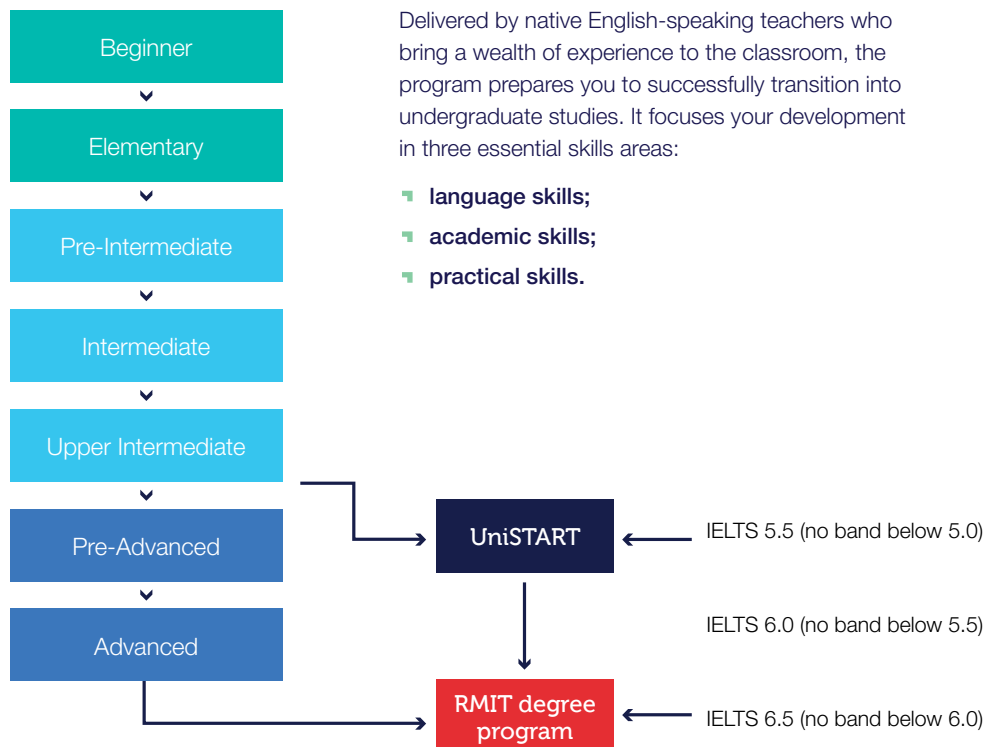

Pathway programs

English for University

The English for University program is a seven-level program for learning English at RMIT, taking you from the level of 'Beginner' to 'Advanced'.

Delivered by native English-speaking teachers who bring a wealth of experience to the classroom, the program prepares you to successfully transition into undergraduate studies. It focuses your development in three essential skills areas:

- language skills;
- academic skills;
- practical skills.

Learn more about English for University
<http://bit.ly/RMITenglishforuni>

UniSTART

UniSTART is an informal pathway into programs at the School of Business & Management, School of Communication & Design and School of Science & Technology, allowing you to combine English study with first-year undergraduate courses.

This program allows you to further enhance your English and academic skills to the advanced levels while taking some first-year courses in your selected undergraduate program.

When you enter your undergraduate program, you will receive full academic credit for the courses that you completed as part of UniSTART.

Learn more about UniSTART
<https://www.rmit.edu.vn/unistart>

Semester	English for University	Support	Undergraduate courses (sample only)
1	Pre-Advanced (IELTS entry 5.5)	Plus 25 hours of additional support*	
2	Advanced A (IELTS entry 6.0)	Plus 25 hours of additional support*	Introduction to Management
3	Advanced B (Advanced A prerequisite)	Plus 25 hours of additional support*	Business Computing 1 Marketing Principles

* This includes academic and independent skills development

UniSTART is an informal pathway into undergraduate study and is not a recognised higher education qualification.

Eligibility

Vietnam Education System

	Undergraduate programs	UniSTART
Academic requirements	Upper Secondary School Graduation Diploma with a minimum GPA of 7.0/10.0, or equivalent, for Year 12. Additional requirement for Engineering/IT programs: a minimum score of 6.0/10.0, or equivalent in Mathematics.	Upper Secondary School Graduation Diploma with a minimum GPA of 6.0/10.0, or equivalent, for Year 12.
English requirements	Successfully complete RMIT English for University Advanced or complete one of the following English proficiency tests: <ul style="list-style-type: none"> IELTS (Academic) 6.5 (no band below 6.0) TOEFL iBT 79 (with minimum score of 13 in Reading, 12 in Listening, 18 in Speaking and 21 in Writing) Pearson Test of English (Academic) 58 (no communication band below 50) Cambridge English: Advanced (CAE) or Proficiency (CPE) 176 (no component below 169) 	Successfully complete RMIT English for University Upper Intermediate or complete one of the following English proficiency tests: <ul style="list-style-type: none"> IELTS Academic 5.5 (no band below 5.0) TOEFL iBT 50 (with minimum score of 5 in Reading, 5 in Listening, 14 in Speaking and 15 in Writing) Pearson Test of English (Academic) 42 (no communication band below 36) Cambridge English: First (FCE) or Advanced (CAE) 162 (no component below 154) RMIT Vietnam English Placement Test: Pre-Advanced

Note: TOEFL, IELTS, Pearson and Cambridge test results must be taken no more than two years prior to the RMIT program commencement date.

Other requirement for the Bachelor of Digital Film and Video

Candidates for this program will be required to submit a one-minute video to support their application, with the video topic to be determined by the School of Communication & Design. Please contact our consultants for more information.

International Baccalaureate (IB) Diploma

	Undergraduate programs	UniSTART
Academic requirements	International Baccalaureate Diploma with a minimum of 25 points. (Aggregate scores include bonus and penalty points) Additional requirement for Engineering/IT programs: a minimum score of 2 at Higher Level or 3 at Standard Level in Mathematics.	International Baccalaureate Diploma with a minimum of 24 points. (Aggregate scores include bonus and penalty points)
English requirements	International Baccalaureate Programme with one of the following: <ul style="list-style-type: none"> English A1 or A2 with a minimum score of 4 at Higher Level (HL) or Standard Level (SL); or English B with a minimum of 4 at Higher Level (HL) or a minimum of 5 at Standard Level (SL) <p>Note: the qualification must be taken no more than two years prior to the RMIT program commencement date.</p>	International Baccalaureate Programme with one of the following: <ul style="list-style-type: none"> English A1 or A2 with a minimum score of 3 at Higher Level (HL) or Standard Level (SL); or English B with a minimum of 3 at Higher Level (HL) or a minimum of 4 at Standard Level (SL) <p>Note: the qualification must be taken no more than two years prior to the RMIT program commencement date.</p>

United States

	Undergraduate programs	UniSTART
Academic requirements	High School Diploma with a minimum GPA of 2.5/4, or equivalent; and one of: <ul style="list-style-type: none"> a minimum SAT score of 1500 (out of 2400); or 1060 (out of 1600); or a minimum ACT composite score of 21. Additional requirement for Engineering/IT programs: a minimum score of C in Mathematics.	High School Diploma with a minimum GPA of 1.0/4, or equivalent.
English requirements	See the standard undergraduate programs' English requirements (page 56)	See the standard UniSTART English requirements (page 56)

UK A Levels

	Undergraduate programs	UniSTART
Academic requirements	UK General Certificate of Education with a minimum of 7 points for 3 A level subjects. Additional requirement for Engineering/IT programs: a minimum score of C in Mathematics (A Level)	UK General Certificate of Education with a minimum of 4 points for 2 A Level and 1 AS Level subjects
English requirements	<p>Successfully complete one of the following:</p> <p>UK IGCSE (O Levels):</p> <ul style="list-style-type: none"> C / 4 or better in English - First Language or English Literature; or B / 6 or better in English - Second Language; or <p>UK GCE A Levels: Achieve minimum C in an A Level subject that is taught and examined solely in English (excludes language subjects and mathematics and music).</p> <p>Note: the qualification must be taken no more than two years prior to the RMIT program commencement date.</p>	

Sri Lanka A Levels

	Undergraduate programs	UniSTART
Academic requirements	Sri Lanka A Levels with a minimum of 9 points for 3 A Level subjects. Additional requirement for Engineering/IT programs: a minimum score of C in Mathematics (A Level).	Sri Lanka A Levels with a minimum of 3 points for 3 A Level subjects.
English requirements	See the standard undergraduate programs' English requirements (page 56)	See the standard UniSTART English requirements (page 56)

South Korea

	Undergraduate programs	UniSTART
Academic requirements	Immungye Kodung Hakkyo Choeupchang (Upper Secondary Certificate) with a minimum GPA of 75%, or equivalent, for the 3rd year. Additional requirement for Engineering/IT programs: a minimum score of 70%, or equivalent in Mathematics.	Immungye Kodung Hakkyo Choeupchang (Upper Secondary Certificate) with a minimum GPA of 60%, or equivalent, for the 3rd year.
English requirements	See the standard undergraduate programs' English requirements (page 56)	See the standard UniSTART English requirements (page 56)

Accommodation

On-campus residential facilities at Saigon South accommodate more than 100 students, offering a safe and comfortable home away from home. All apartments are fully furnished and air-conditioned, and residents have access to exclusive study spaces, kitchens and recreational areas.

Room type	Capacity	Fee per student (one semester/16 weeks)	Fee per student (four weeks)
Single studio	1	VND 39,000,000	VND 10,700,000
Twin studio	2	VND 28,500,000	VND 8,000,000
Three-bedroom apartment	3	VND 33,500,000	VND 9,300,000
Five-bedroom apartment	5	VND 32,000,000	VND 8,800,000

* Prices quoted are for 2020

Inclusions

- furnishing
- air-conditioning
- the cost of utilities, including electricity and water
- weekly services, including linen change (sheet and pillowcase)
- in-room wireless internet
- wireless connectivity to the printing lab
- in-room telephone connection for external and internal calls
- in-room safety box

Services and facilities

- on-site university management presence
- reading rooms
- a kitchen, with refrigerator, freezer, microwave oven, electric cooktop and rice cooker, on each floor
- printing lab with wireless printers, workstations, internet connection and English-language software
- recreation room with television, board games and a pool table
- external courtyard with outdoor seating and barbecues
- laundry room with washing machine, dryers, ironing board and iron
- external clothes-drying area
- access to university facilities, including the food court, sports centre and playing fields

More accommodation information
<http://bit.ly/Rmitaccommodation>

I love the 'dorm' life at Saigon South. Everyone living in the student accommodation gets along, and the staff there are very friendly, too. We often arrange movie nights at the dorm so we can all hang out together and watch films. The campus has many good facilities, especially the library. The library has a great fiction section, along with excellent study resources.

Isuri Fernando

Bachelor of Engineering (Electronics and Electrical Engineering) (Honours)
 Country: Sri Lanka

How to apply

At RMIT University Vietnam, there are three intakes each year:

FEBRUARY

JUNE/JULY

OCTOBER

Application process

Scholarships

RMIT Vietnam will offer more than 100 scholarships, at a total value of about 33 billion VND, to new students in 2020.

Up-to-date scholarship information
<http://bit.ly/rmitscholarship>

Tuition

Students can choose between the standard tuition fee or the fixed-fee program. Payments are made each semester on a course-by-course basis.

Up-to-date fee information
