About Luiss University

Located in the eternal city of Rome, Luiss is an international university specialized in the fields of social sciences, providing a diverse learning environment based on entrepreneurship, responsibility and sustainability. At Luiss, we inspire and enable a better world, believing that social sciences play - and will continue to play - a central role in the emerging digital society.

Since its founding, Luiss has developed privileged relationships with the business community, through its affiliation with Confindustria, the General Confederation of Italian industry, as well as with legal studios, government institutions and civil society. Luiss has also forged special relationships with European and Italian institutions, thanks to the numerous faculty members that have served within them.

The Luiss educational model combines academic rigor with practical relevance.

Its main features are:

- | **Research-led:** Luiss faculty members are top experts in their fields, actively engaged in their research communities as well as in their professional and management communities.
- | **Experience-based:** Luiss relies upon a highly selected pool of top executives, chartered consultants and diplomats to discuss topics they experience systematically.
- | **Problem-driven:** our programs require students to engage in projects and research, in which they are expected to develop solutions to real-world problems.

The Luiss model is strengthened by a *life large learning* approach which challenges students' intellectual curiosity, inspires individual effort and self-discovery and encourages independent and critical thinking.

Why Luiss

- | English-speaking University
- | Internationally recognized degrees
- | Full scholarships for talented students
- | Italian lifestyle:
Art, history and culture
- | High employability
- | Top-ranked programs
- | Societal impact
- | Enquiry-based, experiential, and interdisciplinary learning
- | Safe and healthy environment
- | Sense of community belonging through the Luiss Alumni Network

Ayda Bugdanoglu

International Student
of Economics
and Business

Turkey

“The international perspective and standing of Luiss, along with a great location is why I chose to develop my skills here. I can’t think of anywhere better to study Economics and Business today than in one of the greatest capitals in history.”

Bachelor's Degrees

(3 years, 180 ECTS)

Through lectures with world-renowned professors and hands-on training with corporate leaders and professionals, the internationally recognized Luiss Bachelor's degree constitutes a valuable tool to kick-start a rewarding career in entrepreneurship, business, finance and international organizations.

Economics and Business

The aim of the three-year Bachelor's degree program in Economics and Business is to train open-minded, internationally-focused graduates. The course provides solid, general preparation in the most important economic fields and offers an excellent introduction to the fields of business and finance.

In addition, students acquire solid methodological tools to understand and analyze economic and financial phenomena, including the acquisition of basic legal concepts taught within an economic framework. The three majors are **Management**, **Economics**, and **Finance**, giving students the chance to prepare for master's programs.

Management and Computer Science

As part of a university-wide initiative to further teaching and research in the emerging fields of digital management and data science, the Department of Business and Management offers a Bachelor's degree in Management and Computer Science, aimed at providing students with a unique educational opportunity in data science.

Co-designed by academic and business partners, this program weaves economics and management disciplines with courses in coding, machine learning and artificial intelligence to forge a new breed of digital talents. In a data-driven era, managers must have interdisciplinary skills - strategic and organizational knowledge as well as computing abilities - to discover patterns in data and turn them into actionable information that creates value.

[Find out more](#)

Politics, Philosophy and Economics

The Politics, Philosophy, and Economics (PPE) bachelor's degree program prepares students for a truly international career from day one of their college education. Students will gain a broad understanding of and exposure to various disciplines and their impact on societies today, including: history and law, political science, sociology, economics and statistics. PPE graduates will develop a portfolio of knowledge, competencies and skills that will serve them as they navigate the complexities of the interconnected contemporary world.

The PPE program utilizes an interdisciplinary approach to understand current affairs from political, economic, legal and sociological perspectives and an international approach both in terms of the topics covered and the faculty presenting them. It also takes a critical approach to contemporary politics, allowing students to acquire an in-depth understanding of political and institutional phenomena.

A young man with dark hair and glasses is speaking into a black microphone. He is wearing a black turtleneck sweater. In the background, another person is partially visible, looking towards the speaker. The setting appears to be an indoor event or seminar.

Taymour Elmasry

International Student
of Political Science

Egypt

“I am studying Political Science at Luiss because I am really interested in International Relations. During these years at Luiss, I’ve had the chance to receive a transversal and multidisciplinary education ranging from Politics and International Law to Game Theory. This is very important in order to understand the complexity of the world we live in. What I like the most is the way our professors mix theory with practice through seminars in the presence of decision makers, such as former prime ministers, UN officials or EU Commissioners, just to mention a few.”

Master's Degrees

(2 years, 120 ECTS)

A Luiss Master's degree provides graduates with the tools necessary to begin careers in business, finance, entrepreneurship, international organizations, sustainability, digital innovation and data science management.

By virtue of practical teaching methods, world-renowned professors and professionals, as well as internship opportunities with top companies and institutions, graduates of Luiss University Master's programs stand out in their fields of expertise.

Corporate Finance

Offered by the Department of Business and Management in cooperation with the Department of Economics and Finance, the Master's program in Corporate Finance reflects objectives common to both departments, focusing on the interactions between corporations and financial markets and covering the topics of financial economics, financial management, business planning and valuation, mergers and acquisitions (M&A), capital markets, asset pricing, risk management and derivatives.

The Master's program in Corporate Finance adopts innovative teaching methods that help students translate strong theory into useful skills. Students are continuously exposed to case studies, simulations, company presentations and experiences as well as inspiring talks by top managers and professionals.

Global Management and Politics

The Master's degree program in Global Management and Politics – offered by the Department of Business and Management in cooperation with the Department of Political Science – complements topics related to management with socio-political issues, as global managers must be aware of the intricacies of world politics.

The study plan starts with the exploration of the economic, legal and economic-business foundations of global management.

The course of studies then moves on to organizational and strategic issues and ends with the analysis of important issues related to the political implications of globalization, international relations, the dynamics of international governmental and non-governmental organizations and activities related to representing corporate, stakeholder and institutional interests.

The Master's program trains professionals to perform managerial and specialist functions within international organizations, particularly in the context of global industries and services, strategic consulting firms, as well as institutions operating at supranational and international levels.

Job opportunities

- | National and international organizations
- | Global industries and services
- | Strategic consulting firms
- | Supranational and international institutions

International Relations

The Luiss Master's program in International Relations prepares graduates for careers in diplomacy, as international security experts for both the public and private sectors and in the management of Euro-Mediterranean issues. The program responds to the growing need for highly trained figures (in international organizations and in the traditional diplomatic sector) that are able to handle both old and newly emerging challenges. The program branches out into three majors: Security, Mediterranean Governance and Diplomacy.

The major in **Security** provides tools to analyze security issues and challenges. Students will be trained to deepen their knowledge of geopolitical and strategic dynamics not only at European level but also on a global scale.

The major in **Diplomacy** aims to train diplomatic personnel that are equipped to join international representation around the world.

The major in **Mediterranean Governance** focuses on the politics, sociology and cultures of Mediterranean countries as well as the different kinds of political systems and migration policies.

Job opportunities

- | Private European and international companies
- | National and European public administrations and ministries of foreign affairs
- | Think tanks and research centers
- | National and European lobbying and public relations companies
- | Consultants of foreign investment and commercial arbitration for businesses and law firms
- | National and non-governmental organizations
- | Journalists

Law, Digital Innovation and Sustainability

The Master's degree in Law, Digital Innovation and Sustainability equips experts in innovation – and in particular, students with a legal or managerial background – with the instruments necessary to interpret the current digital and ecological transitions in society and the economy, offering them a solid legal background with equally strong interdisciplinary, managerial and technical knowledge.

The **Digitalization** major prepares students with an understanding of how digital technologies are changing business models, providing new revenue sources and value-producing opportunities, and defining new value-sharing approaches. It then broadens

their skills and competencies, enabling them to connect the legal and business aspects of digital transformation processes and generate integrated systemic solutions (e.g. business units, legal solutions, institutional/regulatory/policy innovations, new ventures, etc.) by drawing from a wide range of social and technical sciences.

The **Sustainability** major takes an in-depth look at climate change and its consequential social changes and how they affect traditional business models. It empowers students to create new models, define new revenue sources and value-producing opportunities, and forge new value-sharing approaches in order to identify and influence systemic

solutions for sustainable development, urban prosperity and territorial growth.

Job opportunities

- | Innovation Officers and Managers
- | Sustainability Officer and Manager
- | Legal Innovation Designer
- | Data Protection and Security Manager
- | Cyber Risk Manager
- | Risk Officer

Policies and Governance in Europe

The Master's degree in Policies and Governance in Europe (PAGE) responds to a changing world in which policy decisions are taken at different but interconnected levels. It prepares students to use public policy analysis in the outside world by drawing on different disciplines. The track focuses on how and why policy makers create, use and manage cultural heritage, which includes historic buildings, museums, cities, food and intangible heritage.

The Master's degree in Policies and Governance in Europe covers major policies made at EU, international, national, regional and local levels. It is multidisciplinary and includes the study of political science, law and economics, sociology and management. It offers a combination of analytical skills, knowledge of key domains and specific competencies. It is designed for public and private sector organizations (e.g. government agencies, EU and international institutions, museums, associations, local and regional development offices).

The program offers two majors, **Cultural Heritage Policies and Economics, Governance and Market Regulation.**

Students will gain practical experience through internships and gain entrance to employment opportunities in the public and private sector.

Job Opportunities

- | Government Ministries
- | Regions
- | Museums
- | Associations
- | International organizations
- | National and international NGOs

Living in Rome

Rome is the capital of Italy, the fourth most populous city in the European Union and one of the most visited cities in the world. It's also the only city in the world which contains a whole country – the Vatican City – and is one of the cities with the highest number of diplomatic missions, including those of the Italian Republic, the Vatican City and various international organizations such as FAO, IFAD and WFP.

Rome is often referred to as the Eternal City, spanning 28 centuries of history since its founding in 753 B.C., making it a historic marvel. It also has great travel connections, a mild Mediterranean climate and intense urban energy. It is considered a safe city to live in, especially in the areas around Luiss University, and its outgoing people are known for their style, love of football and their world-famous cuisine with great restaurants and cafes that can be sampled on every corner.

Anqi Chen

International Student
of Management and
Computer Science

China

“Luiss is a wonderful University.

During the day, you can find a quiet place to sit and work in the study room on the second floor of the converted chapel. In your spare time, you can enjoy your tea in the Language Café or have a seat on the swivel chairs in the garden. The sound of guitar and music may come from the corner of any corridor and there are lots of campuses to discover.

Luiss provides us with a safe and secure teaching environment, even in these particular times. The temperature detection at the gates, the live classroom broadcasts via WebEx and the takeaway system in the canteen all give us a sense of security.”

Services for International Students

Welcome Desk

Dedicated staff to provide students with information on administrative formalities, opportunities, and initiatives throughout their time at Luiss.

Housing service

Luiss works with a real estate agency to provide comfortable housing options near the University.

Italian courses

Complementary Italian courses are offered to international students to provide basic knowledge of the language and facilitate everyday communication.

Cultural integration

Students are offered a wide range of cultural activities, from exploring unusual and secret places in Rome to contests, competitions and sports events.

Visas and residence permits

Assistance to non-EU students who need to apply for visas or residence permits in order to study and live in Italy. Special sessions are dedicated to help students complete the requested documentation.

Sports and medical certifications

Track and field, soccer, rowing, cycling, volleyball, swimming, basketball, rugby, skiing, tennis and other athletic opportunities, plus a free medical check-up and medical certifications for amateur sports.

Luiss counseling

A service focused on culture shock, available to students who might need help or advice on culture-related issues.

Buddy and tandem programs

A peer-to-peer initiative to help integrate international students and enhance their Luiss experience by immersing them in campus life.

Tutoring service

University tutors help students to build an educational path that meets their job market goals by supporting them in making academic choices. Academic tutors organize study groups on specific subjects and exam workouts through the Academic Gym.

Career Service

Thanks to its connection with more than 500 public and private institutions as well as multinational companies, Luiss is able to provide students and graduates with real career opportunities, supporting them in entering the job market through internships, meetings and seminars with leading international companies and institutions. With more than 120 annual meetings, the Career Services Office increases students' chances of getting hired by offering the support of skilled recruiting professionals.

Luiss LOFT

The Laboratory of Fabulous Things (LOFT) is a hub for students, staff and professors to connect, explore and stimulate their creativity while delving into tech culture, creativity, design and digital production. It offers several spaces for coding, co-working, video production, editing and watching films.

Luiss Language Café

The Luiss Language Café is a multilingual home for creative collaboration, with three makerspaces and a theater area. Students can meet to enjoy the latest news in different languages, drink free coffee, browse the café's international newspapers, magazines and over 700 books.

Soft Skills and Student Development for Life largearning

Soft Skills

From Case Analysis and Business Games to the Geek Cafè, the School for Public Policy, Building Europe and the Lab for the Governance of Commons, Luiss students experiment with games, teamwork and role-playing while being encouraged to think outside of the box.

Ethics, Responsibility and Sustainability

Today's leaders cannot overlook ethics and sustainability. This series of initiatives includes volunteering, community gardening, collaboration with non-profit associations and NGOs - in Italy and abroad - to improve community awareness and understand how to play a unique role in creating value for society.

Luiss Alumni 4 Growth

Luiss Alumni 4 Growth - LA4G - fully owned by Luiss Guido Carli University, manages the Investment Club of Luiss Alumni as an advisory company.

The club's main objective is to support the ecosystem of Luiss-related startups and entrepreneurs: startups founded, co-founded or managed by Luiss graduates or incubated or accelerated in systems connected to the University, such as Luiss EnLabs.

The Luiss Alumni Investment Club follows a benefit logic, with returns on investment engaged in projects promoting social sustainability. The support first goes to social mobility through studies: LA4G supports the mentorship of young people from disadvantaged communities to help them gain admittance to Luiss with full scholarships, covering also the cost of travel and housing. Based on returns, the project will expand to the international level with the same logic.

Today, less than two years after its establishment, the LA4G Investment Club counts sixty members, three corporate club members and five startups in its portfolio, chosen from over two-hundred projects evaluated by a team of Luiss faculty and graduates. The activities of the investment club are supported by a qualified investment advisory board made up of Luiss alumni, experts in equity investments, venture capital and startups.

The five startups:

- I [Insoore](#)
- I [Neosurance](#)
- I [Keyless](#)
- I [SkinLabo](#)
- I [FrescoFrigo](#)

With LA4G, Luiss aims to consolidate its leadership in startup entrepreneurship, bridging a gap in Italian innovation financing, thanks to its extraordinary network of alumni.

Building Partnerships, Securing Opportunities

Student mobility

With more than 224 exchange agreements in 47 countries all over the world, Luiss is committed to continuing its global development to provide students with the chance to immerse themselves in a rich environment that complements a high-quality education. Luiss students hail from 85 different nationalities.

Double Degrees

Thanks to its extensive and ever-increasing network of partners, Luiss enables students to spend study periods abroad and to achieve additional degrees to enrich their résumés and stand out among their peers.

“A Double Degree is the best choice to develop and refine your intercultural skills. It is difficult to learn intercultural skills by reading a book or sitting an exam; they require full immersion in an environment which is multicultural, multiethnic and multilingual.”

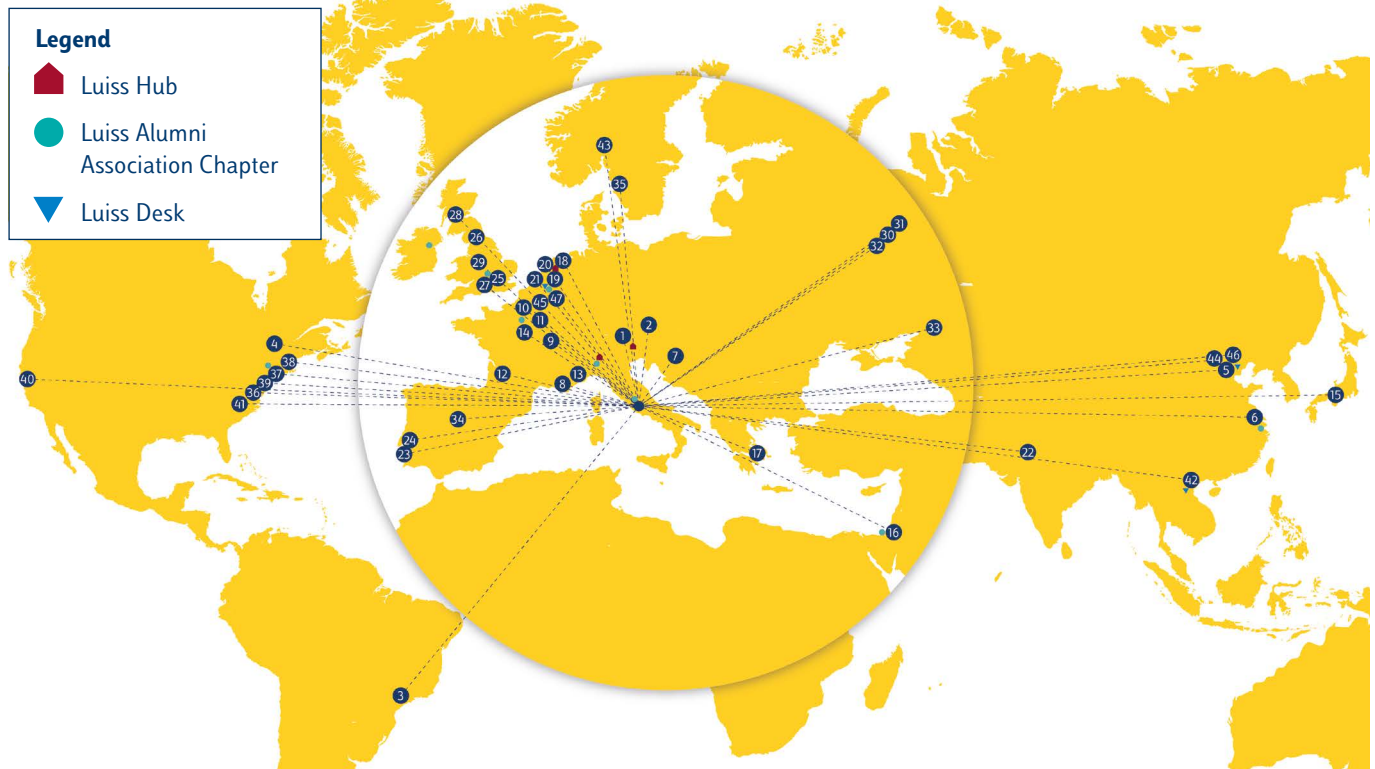

Professor Andrea Prencipe
Rector, Luiss University

Dante B. R. Timpano

International Student
of Economics
and Business

Canada

“I chose Luiss because I wanted to give myself the opportunity to study at an important University and meet people from around the world who have experienced completely different things than I have.

My life so far at Luiss and in Rome has been filled with great experiences: meeting many new friends from around the world, creating connections with teachers and others within the city, and exploring the beautiful city of Rome. Oh... and lots and lots of food!”

Luiss Campuses

Viale Pola

The historic Luiss campus and the University's headquarters. The campus is home to the Luiss Schools of Journalism and Law and hosts some courses of the Department of Law.

Viale Romania

Completely renovated in 2007, the campus offers advanced technology and services and is home to the Departments of Economics and Finance, Business and Management, and Political Science. The grounds of over 33,000 square meters are set in a park in the center of Rome.

Via Parenzo

Housing the Department of Law, this building from the 1930s is considered one of the best examples of the period's architectural trends. Structured into various terraces and study spaces, it offers a great community atmosphere.

Villa Blanc

An architectural jewel of the 19th century, Villa Blanc is home to the Luiss Business School, ensuring students a unique learning experience thanks to a combination of digital technologies and a prestigious historical setting.

Luiss Residences

Luiss University helps students find housing near campus, offering a variety of options to suit different needs: Luiss residences, affiliated residences and private rooms and apartments.

Maria Teresa Panunzi

Located in the same building as the Luiss Library, near the Viale Pola and Via Parenzo campuses, the residence offers both single and double rooms. Services include a doorman during the day and security at night, a laundry room, cleaning and linen services, kitchens, common areas and Wi-Fi.

Lisbona

Near the Viale Romania campus, the residence provides both single and double rooms. Available services include a doorman during the day and security at night, a laundry room, cleaning and linen services, kitchens, common areas and Wi-Fi.

Collegio Universitario di Merito Don Nicola Mazza

The residence offers both single and double rooms with bathrooms. Services include a cafeteria, a small gym, a music room and spaces to study, relax and socialize. The residence also has a doorman during the day and security at night, a laundry room, cleaning and linen services, and Wi-Fi.

Pola

Located near the historic Viale Pola campus, home to the Department of Law and the School of Law, as well as the Via Parenzo campus, the residence is connected to the Viale Romania campus via the University's free shuttle bus service. The residence has both single and double rooms.

Villa Betania

This residence is divided into small apartments with a living room, small kitchen, bathrooms and bedrooms. The building offers a doorman during the day and security at night, a laundry room, cleaning and linen services, and Wi-Fi.

Adoption Lab

The Adoption Lab Project connects students with companies, helping them to deepen their knowledge of the work environment.

The employers of leading companies “adopt” selected students, offering them the chance to work on projects and do an internship upon graduation.

During the first year of the program, AdLab arranges visits to headquarters of partner companies and meetings with employers, who explain company policies and the skills required to reach important professional goals.

The second year focuses on putting acquired skills to work and testing participants’ problem-solving and teamwork skills. In addition, host companies give AdLab students specific projects to work on as consultants. Luiss tutors collaborate with teams and companies, supervising the activities. At the end of the first semester of the second year, students present their projects to employers, who provides feedback on the collaboration period as offering advice regarding résumé preparation.

Top students may be offered an internship at a partner company after graduation.

Luiss Library

Renovated both in terms of its vision and spaces, the Luiss Library is specialized in the Social Sciences and serves as the primary reference point for scientific research , supplying constant support to the teaching programs of the University.

In order to strengthen the digital services offered, the Library offers off-campus access to its online catalog and electronic collections with over 500,000 e-books, more than 170,000 e-journals and 180 databases.

The Library is open from Monday to Saturday. Its open and multifunctional spaces give students the opportunity to study, take advantage of the bibliographic research support services, and access the print collections, with around 103,000 books and over 1,170 magazines.

Scholarship

In addition to guaranteeing quality academics, Luiss offers a variety of financial aid programs and services to support students who decide to invest in their futures and maintain high academic standards throughout their careers.

Luiss seeks out highly motivated students from all economic and cultural backgrounds who possess the ambition to become agents of change.

Thanks to the contribution of leading companies, foundations and individuals from the Luiss network in Italy and around the world, the University can guarantee economic support to 10% of the student population.

Luiss currently offers a range of tuition exemptions, including:

Full and partial exemptions: STEM scholarships, scholarships for students with high GMAT/GRE scores, scholarships for students with high ACT/ACT/IB scores

Full scholarships, including room and board:

- l The International Training Program
- l The Corridoi Umanitari Program

International Admissions Procedure

For students obtaining a secondary school diploma abroad there will be rolling admissions for the entire academic year (November 2, 2020 - June 11, 2021). For the criteria, modalities and timelines, please consult the admissions calls, which will be published on the luiss.edu website.

During the application phase, candidates may indicate up to three degree programs, in order of preference, for which they wish to compete. The second and third choices will only be taken into consideration in case of non-admission to the first choice. For admission purposes, the Admission Boards will evaluate, at their sole discretion, the academic background and transcripts of records, rankings of the origin school/institute, the school year in which the eligible qualification was awarded (preference will be accorded to qualifications conferred in the last three academic years), the language level declared and the highly recommended certificates (i.e. SAT, ACT, GMAT, GRE).

Only those candidates identified by the Commission as possible scholarship candidates may be contacted to arrange a Skype call.

Documents or data required to complete the online application (in pdf or image format):

- certificate showing the studies completed to date (updated transcript of records or, if not available, provisional transcript) and associated grades;
- details of a sponsoring teacher/professor, who may be contacted by the admissions commission;
- other optional certification (for example SAT/ACT or GMAT/GRE)

Exempted from the selection process for the Three-year and Single-cycle Degree Programs are candidates in possession of:

- a SAT/ACT certificate with the following minimum scores:
SAT - Total score 1090 (out of 1600)
ACT - Total score 20 (out of 36)
- IB Diploma obtained/to be obtained abroad with a minimum grade/predicted grade of 30. Students with a GPA of 5 out of 7 or higher in grade 11 may participate in the Luiss IB Honors Program to compete for the award of a fee waiver for the 2021/2022 a.y. in accordance with the terms of the related call.
- Achievement of the Gaokao (National College Entrance Examination of China) with minimum scores to be determined based on the region, in accordance with the requisites determined by the relative call for applications which will be published starting from Spring 2021.

Exempted from the selection process for the Master's Degree Programs are candidates in possession of:

- A GMAT or GRE certificate with the following minimum scores:
GMAT: 550 (out of 800)
GRE: Verbal - 145 (out of 170) and Quantitative 145 (out of 170).
