### About the Centre

The Centre for Higher Education Internationalisation (CHEI) is based at the Milan campus of Università Cattolica del Sacro Cuore. The centre offers a **PhD programme** in the Internationalisation of Higher Education in conjunction with the **Doctoral Schools of Education and Languages**. We also conduct **research** and offer **training** in various aspects of the internationalisation of higher education through **seminars** and **workshops** for academics and professionals. Many of these initiatives are delivered through **international partnerships, networks and projects**.

### Current Themes in Focus

- Global national and institutional trends in internationalisation: policies and strategies for internationalisation; shifting rationales for internationalisation; internationalisation at home and of the curriculum; the international student experience (support services, satisfaction); mobility and transnational higher education; internationalisation and employability; international education and institutional development.
- Internationalisation of Italian universities in the European and global context; the international student experience in Milanese universities; the international classroom and the use of English as a medium of teaching and learning.

### PhD Programme

The centre offers one of the few doctoral programmes in Europe with a focus on Higher Education Internationalisation. It is suitable for both **career academics** and **scholar-practitioners working in administration**, and attracts candidates internationally. Students are **required** to attend **two research seminars a year**, conduct **original research** and **write a dissertation in English**, supervised by international scholars and experts in the field.

### PhD Research Seminar

Held **twice a year**, this **five-day seminar** is aimed at a broad community of aspiring or current PhD students, international education practitioners and senior scholars. Workshops and seminars on **key and emerging issues** are held by core and affiliated faculty, and invited academics. At the same time, it provides a **forum** for participants to present and discuss their research with peers and experts.

On top of the above mentioned activities the centre is also involved in a number of **international research** and **training projects** as well as a **professional development project** with regards to Internationalising the Classroom and **English-medium Education (EME)**.

## Cooperations

## INTERNATIONAL ACTIVITY

The international cooperation affairs of Università Cattolica are organised and coordinated by the **International Cooperation Unit**. It provides **support for faculty members** in their selection of adequate calls for applications that are launched mainly by the European Union, the Ministry of International Affairs and by other entities, such as various foundations. The unit also assists in **defining the project features** and provides **administrative support** in managing the project cycle for the selected and funded project proposals.

Università Cattolica actively **cooperates with projects** within the **EU framework** that focus on **social and educational issues**, such as:

- Inclusion strategies in education
- Social responsibility in business
- The food supply chain (Faculty of Agriculture, food and environmental sciences) and others.
- Intercultural and sports mediation in international Diplomacy
- Internationalisation at home of the higher education
- Soft skills and new technologies in adult education
- Practical training exchanges for the students in Medicine and surgery

In the future, Cattolica intends to **expand its participation** in cooperation projects promoting themes of **inclusiveness, civic and community engagement**, and **entrepreneurial education**, especially through the ERASMUS+ Strategic Partnerships programmes, Capacity Building actions and the financial support of the Italian Ministry of International Affairs.

Currently, Cattolica takes part in about **30 projects**, contributing to its reputation and expertise in research and development projects **all around the world**. For the proposal calls of 2021, Cattolica put forward many more proposals than it was engaged in, thus showing its strong commitment to **finding new opportunities for innovations and complementarities** for an ever active and creative external engagement.

Cattolica also participates in ongoing projects like the **International Credit Mobility (ICM)**, thus facilitating connections with neighbouring countries. Currently, the University is working with **American universities** by exchanging students and staff, and with the aim of implementing a conducive platform for the **reinforcement of research collaborations**.

Moreover, Cattolica promotes **European higher education** and the issuance of **Joint/Double Degrees** through **Erasmus Mundus Joint Master Degree projects**, such as the Agricultural, Food and Environmental Policy Analysis (AFEPA) Network.

Cattolica is also leading a project in a joint venture with the **e4IMPACT foundation** and **AICS (Ministry of Foreign Affairs)**, aiming at developing and sustaining impact entrepreneurship in Kenya, as well as strengthening the **business ties between Kenya and Italy**.
