Italian higher education system

STEP BY STEP

MSc - Graduate Degree/Master of Science (Laurea Magistrale)

Course duration: 2 years
 ECTS/Credit points: 120
 Undertaken after the undergraduate degree and aimed at providing rigorous, advanced training in more highly specialised areas. Enables students to apply for a PhD at any Italian or international university.

Specialising Master (Master Universitario)

Course duration: 1 year
 ECTS/Credit points: 60
 A professionalising programme providing practical knowledge and training through coursework and internships. These Masters programmes within the Italian education system do not generally allow access to a PhD programme upon completion of the Master. Recognition of the Specialising Master towards a PhD programme outside of Italy will depend on local state regulations or individual doctoral programmes. Università Cattolica's English-taught 1-year specialising Master programmes include consultancy work projects that may lead to internships/job opportunities.

Doctoral Programme - PhD (Dottorato di Ricerca)

Course duration: 3 years
 ECTS/Credit points: 180
 Undertaken after the completion of a Master of Science or an equivalent graduate degree. It aims to develop the professional competence to carry out high level research in manufacturing and service companies, public bodies and universities.

What are the differences between 2-year MSc degrees and 1-year Specialising Masters?

- The 2-year MSc degree:**
- Is an academic degree of 120 ECTS
 - Requires a similar academic background for access
 - Provides advanced academic knowledge in highly specialised areas. Students will write a final dissertation
 - The degree enables students to apply for a PhD at any Italian or international university, as well as to internships/job opportunities

The 1-year Specialising Master Diploma:

- Is a professionalising diploma of at least 60 ECTS
- Welcomes students from different academic backgrounds
- Focuses on specific topics and provides practical skills. There is dedicated time for an internship or project work and students will not write a final dissertation
- The diploma does not give students direct access to a PhD but leads to internships/job opportunities
