## commitment to sustainability

Our campus is managed from the most advanced criteria of energy efficiency, recycling and social commitment.

On-campus green area is rich and varied and plays a leading role. We have an 'Enlightened Forest', a palm-tree grove and many other species.

The University of Alicante built has its own reverse osmosis desalination plant producing water to irrigate the on-campus landscaped areas. At the same time the Plant is involved in the training of postgraduates, technicians, etc. and is visited by groups both from the university and external.
