

# Empower your future with Business acumen

# The Singapore campus of James Cook University

Established in 2003

The Singapore campus of James Cook University is fully owned by James Cook University Australia, which is ranked in the top 2% of universities in the world<sup>1</sup>. James Cook University Australia established its Singapore campus in 2003 as part of its expressed intent of internationalising its activities and offers a suite of university level programs at the Singapore campus covering the areas of Business, Information Technology, Psychology, Guidance and Counselling, Science, Commerce, Accounting, Aquaculture, Environmental Science, Games Design, Tourism and Hospitality.

James Cook University offers Higher Degree by Research programs such as Doctor of Philosophy, Master of Philosophy and pathways to a higher degree.

Additionally, the campus offers courses at the pre-university level, specifically designed to provide pathways for students who are unable to immediately meet university entrance standards.

The Singapore campus of James Cook University is located at Sims Drive. The campus provides students with access to a full range of facilities and services to support their learning. These include lecture and seminar rooms, library and associated study facilities, computer laboratories, aquaculture research and teaching facility, financial lab and access to a variety of sporting facilities.

## James Cook University Inter-campus Exchange Program\*

James Cook University provides the opportunity for students to study in Singapore and in Australia and yet still remain as Singapore based students paying their fees in Singapore currency. This is a unique program designed to ensure that the students get the best possible outcomes from their years of study with the university, which operates across two countries.

## EduTrust Star

James Cook University has the highest level of quality assurance in Singapore for Private Education Institutions. This is known as EduTrust Star and is a symbol of recognition for outstanding achievement. EduTrust Star is awarded

to those institutions for attaining a commendable level of performance in managing their institutions and providing an outstanding quality of education and welfare for their students.

James Cook University is the first organisation with EduTrust Star. By obtaining this award for the third time in 2023, James Cook University has displayed its commitment and focus as a student centric educational institution.

## Tropical Futures Institute

Given that research is a core component of the university, James Cook University established the Tropical Futures Institute to leverage off the university's research capability and strength and that creates substantive value-add to the research ecosystems of Singapore and the ASEAN region. The Tropical Futures Institute is the first research institute established by an Australian university in Singapore.

## James Cook Institute

James Cook Institute is a wholly-owned subsidiary of James Cook University in Singapore that offers short courses and training programs in Industry 4.0 and areas that fit the needs of the workforce and community. This includes a wide range of short courses and training programs in information technology, digital marketing, communication, and more.

James Cook Institute is committed to further diversifying and enhancing its short course offerings, as well as delivering customised training programs for corporate clients to provide more people with the opportunity to upgrade their skills and stay relevant and employable in today's ever-changing world.

<sup>1</sup> 2024 ShanghaiRanking Academic Ranking of World Universities as a percentage of higher education providers in the International Association of Universities (IAU) database

\* Terms and conditions apply

*The world of business is dynamic and constantly evolving and our business course is a launching pad for careers of the future.*

Note: International students in Singapore on a Student Pass are not permitted to work. For more information please visit [www.ica.gov.sg](http://www.ica.gov.sg)

James Cook University is EduTrust-certified. The EduTrust Certification Scheme (EduTrust) is a quality assurance scheme administered and governed by SkillsFuture Singapore (SSG) for Private Education Institutions (PEIs) in Singapore. The EduTrust Certification Scheme requires all students to be covered under the Fee Protection Scheme (FPS). In James Cook University, this is provided through Fee Protection Scheme Group Insurance. All students from James Cook University are covered hospitalization, surgery and treatment costs in accordance to insurance policy term and conditions under the Group Hospitalisation and Surgical insurance scheme. James Cook University will advise in the Standard Student Contract the total amount of insurance payable.

For more details please visit SkillsFuture Singapore (SSG) website: <http://www.skillsfuture.gov.sg/pei>

# JCU Singapore Business School

The Business School offers a range of pathways, undergraduate and post-graduate degree programs. In the undergraduate programs, students can major in International Business | Management | Hospitality and Tourism Management | Business Intelligence and Information Systems | Human Resources Management | Marketing for the Digital Age | Banking and Finance | Economics | Financial Management | International Trade.

In the post-graduate program, students can specialize in Analytics and Business Solutions | Creative Marketing | Entrepreneurship Finance | Global Talent Management | MICE, Tourism and Hospitality.

1. Students are at the heart of our University and we inspire them to make a difference in their fields of endeavor and in their community by:

- a. Embedding curriculum that is regularly updated with the latest teaching material.
- b. Deploying a mix of Practice and Scholarly Teaching staff to enhance student learning.
- c. Create opportunities in each subject to engage with industry and professionals.

d. Develop industry-ready professionalism through streamlined student clubs and events.

e. Internationalize student experience through universities, industry partnerships and field study trips.

2. We recognize that knowledge has the power to change lives. Our world-class research generates new knowledge and understanding to meet the challenges facing the peoples of the tropics, through:

- a. Research culture shaped by [ERA](#), [SCOPUS](#) and [ABDC](#) indexed and ranked journals.
- b. Intellectual leadership with a tropical agenda amplified through Conferences and Seminars, Book Editorships, Special Issue Journal Editorships and Public Media.
- c. Collaborative research within JCU and with scholars from other institutes.
- d. Research shared through teaching and co-authorship with students and seminars for public.
- e. Partnerships with industry and government bodies.

f. Center for International Trade and Business in Asia (CITBA) and Tropical Futures Institute (TFI) are institutional links for academics and students to nurture discoveries.

---

### 3. Distinction and Impact on Graduates.

a. Proximity to IT, Environmental Science, Psychology disciplines within the campus contributes to potential permutations in degree programs and research.

b. Evolving curriculum and diversification of learning experience both online and face-to-face, field trips, industry engagements and interactive opportunities with partner universities.

c. Focus on professional development through communication skills, business etiquettes, critical thinking, data analysis and data driven decision-making.

d. Many alumni are self-made young leaders throughout the tropics.

e. International Trade as an emerging niche.

f. Multi-cultural and diverse student cohorts.

g. A reservoir of research and teaching colleagues accessible for various intellectual collaboration and consultancy projects.

### AACSB Accreditation

Singapore Campus of James Cook University has been awarded the AACSB accreditation for business programs after a rigorous external review of business school's ability to provide the highest quality programs.

AACSB connects educators, students, and business to achieve a common goal: to create the next generation of great leaders. Synonymous with the highest standards of excellence since 1916, AACSB provides quality assurance, business education intelligence, and professional development services to over 1,600 member organizations and nearly 800 accredited business schools worldwide. Less than 5% of the world's 13,000 business programmes have earned AACSB Accreditation.

AACSB connects, shares, and inspires innovation and quality throughout the member network, as well as the business community.

# Diploma of Higher Education (Majoring in Business Studies)

Students in this course will be given a tailored program within the allocated study period to acquire the necessary skills needed to progress to an undergraduate degree program.

The Diploma of Higher Education (Majoring in Business Studies) will also provide an exit point for early graduates who wish to undertake advanced skills or paraprofessional work in the industry.

Upon completion, students may be given advanced standing of 8 subjects into the Bachelor of Business Program.

## Banking & Finance

(8 subjects)

- Macroeconomic Policy
- Investment and Portfolio Analysis
- Financial Institutions and Markets
- Financial Risk Management
- Behavioural Economics for Sustainable Policy
- Finance of International Trade
- Credit and Lending Decisions
- Treasury Management

### Career Prospects:

This course leads to career opportunities in banking and financial institutions. There are numerous job possibilities in government, and small, medium and large businesses. Work can be very rewarding – your knowledge can assist in making decisions that help businesses develop and thrive, even in times of financial uncertainty.

## Financial Management

(8 subjects)

- Behavioural Economics for Sustainable Policy
- Data Analytics and Business Modelling
- Investment and Portfolio Analysis
- Financial Institutions and Markets
- Multinational Business Finance
- Advanced Business Modelling
- Cost Benefit Analysis
- Financial Risk Management

### Career Prospects:

As a graduate with a major in Financial Management, you will have the financial expertise to pursue a broad range of successful careers, for example, a banker, compliance officer, financial manager, financial analyst, financial planner and investment analyst.

## International Trade

(8 subjects)

- Behavioural Economics for Sustainable Policy
- International Economics
- Global Supply Chain Management
- Trade Negotiations
- Multinational Business Finance
- International Trade Law
- Contemporary Issues in International Trade
- International Political Economy

### Career Prospects:

In today's increasingly global economy, having an ability to understand the key issues impacting international trade has never been so important. The major in International Trade provides students with knowledge in trade negotiation, economics, the political economy, international trade law, and an understanding of the key contemporary issues in the field of trade, such as the re-emergence of protectionism and a potential U.S./China trade war. Students majoring in international trade can find employment opportunities in a wide range of fields, including trade and logistics, banking and finance, management, international business, and economics.

## Economics

(8 subjects)

- Managerial Economics
- Macroeconomic Policy
- Econometrics and Big Data Analysis
- Economics and Sustainable Resource Management
- Economic Growth and Sustainable Development
- Economics of Social Policy
- Cost Benefit Analysis
- Behavioural Economics for Sustainable Policy

### Career Prospects:

This major equips students with the knowledge they need to think creatively and deeply about some of the most important economic issues facing the world today. The program provides you with the skills needed to apply a variety of theoretical perspectives to issues of economic efficiency, economic growth, international globalization, wealth and inequality, power, individual freedoms, and environmental concerns. As a graduate, the analytical, quantitative, and communication skills that you acquire are useful in many different occupations in management, marketing, finance, banking, IT, and public administration.

# Bachelor of Business and Environmental Science

It is well recognised that businesses must have robust environmental strategies to succeed in the 21st century.

**Chief Executive Officers have to consider carbon footprints, sustainable practices, global climate change, and waste management issues.**

These are environmentally sensitive issues which have resulted in an increase of related legislation. In addition, some business activities require a knowledge of the environment. In the aquaculture industry, for example, biological knowledge is required to raise fish, prawns, algae and other crops. But there is no substitute for a good business plan. The benefit of this degree is that it gives you the knowledge and skill to do both.

This multi-disciplinary program uses the university's strengths in business, environmental and marine science. Students are provided with core knowledge and training in the application of business and environmental principles. The course provides a fundamental background in business, environmental and marine sciences that is essential for a holistic approach to business operations.

**Duration:** 24 months full-time / 48 months part-time (Commencing in Trimester)

**Intakes:**

Trimester: January, May, September

**Course Structure:** 4 subjects in Trimester

**Total Tuition Fees (2025)\*:** S\$68,026.90 (International)  
S\$65,291 (Domestic)\*\*

*\* Effective from 1 March 2025. Tuition fees are subject to change in following years.*

*\*\* Fees apply to all Singapore residents (Singapore Citizens, Permanent Residents and all pass holders excluding those holding a Student Pass).*

**Note:**

- All course fees include the corresponding 9% Singapore Goods and Services Tax (GST).
- The details of the instalment breakdown will be provided in your Student Contract. Please contact us for further details.

## Career Prospects:

As a graduate of Bachelor of Business and Environmental Science you will be able to work within a range of public, private and non-profit industries. You can also work in the areas of agriculture, aquaculture, forestry and fisheries. The future is clear. All companies will require key staff who can facilitate growth of businesses in times of strong social and governmental demands for good environmental practices.

4 Business (BU or BX) Level 3 Elective Subjects (12 Credit Points)

\* Subject to availability

*"James Cook University in Singapore is one of the few institutions to offer a course that is related to Aquaculture. I have always been fascinated by the life underwater, be it for tourism, conservation or even food. Many things have yet to be discovered by science and I would very much like to be part of it. This is what inspired me to choose this course in JCU Singapore.*

*Other than science, I was also given the opportunity to take business modules in areas such as economics, HR and management. This also better equip me for my future career."*

**Lee Wei Jie, Alasteir**  
**Bachelor of Business and Environmental Science (Majoring in Aquaculture), 2024**

# Bachelor of Business and Environmental Science (Majoring in Aquaculture)

With aquatic food resources already under pressure and declining, it is essential to develop aquaculture products in a sustainable fashion to improve aquatic food security.

It is increasingly important for Environmental Scientists to understand the theories of sustainability and the effects of humans on the climate as well as to know how to plan and lead sustainable business and environmental practices. With JCU's Bachelor of Business and Environmental Science (Majoring in Aquaculture), you'll learn how to manage the delicate balance between profit, policy, conservation and aquaculture.

This multi-disciplinary program provides students with core knowledge and training in the application of business and environmental principles, with particular attention to aquaculture. Graduates of the program will be able to integrate and apply a coherent body of theoretical and technical knowledge in the disciplines of business and environmental science, with depth in sustainability principles and tropical contexts in the area of aquaculture.

**Duration:** 24 months full-time / 48 months part-time (Commencing in Trimester)

**Intakes:**

Trimester: January, May, September

**Course Structure:** 4 subjects in Trimester

**Total Tuition Fees (2025)\*:** S\$68,026.90 (International)  
S\$65,291 (Domestic)\*\*

*\* Effective from 1 March 2025. Tuition fees are subject to change in following years.*

*\*\* Fees apply to all Singapore residents (Singapore Citizens, Permanent Residents and all pass holders excluding those holding a Student Pass).*

**Note:**

- All course fees include the corresponding 9% Singapore Goods and Services Tax (GST).

MICE, Tourism and Hospitality

# Majors

## Analytics and Business Solutions

(4 subjects)

- Data Analysis and Decision Modelling
- Information Management and Analytics Technology
- Data Mining
- Business Consulting

### Career Prospects:

With the rise of big data, businesses increasingly need managers who can quickly analyze and understand the implications of huge amount of information. The program gives students state-of-the-art tools and techniques to sort and analyze the data, and make valuable organizational impact based on the data. As such, those with degrees in these fields can have impact on a number of areas of business, including finance, marketing, supply chain, and more.

Post-MBA careers in Analytics and Business Solutions can be business analysts, consultancy, financial sector, supply chain management, operations management, marketing, and other areas of business.

## Creative Marketing Major

(4 subjects)

- Multinational Corporations and International Markets
- Digital Marketing
- e-Strategic Management
- Marketing Strategy, Analytics and Development

### Career Prospects:

The program places data-driven creativity at its core, and combines marketing knowledge with advanced management and analytical skills. Students will be equipped with data-driven approaches to understand markets, competitors, and portfolios of product offerings. Students also learn the cutting-edge operating technologies and techniques through hands-on projects and activities.

Post-MBA in Creative Marketing could be Brand Manager, Marketing Manager, Product Manager, Strategic Marketing Manager, Digital Marketing Manager, E-commerce manager, etc.

## Entrepreneurship

(4 subjects)

- Business Consulting
- Venture Capital and Entrepreneurship
- Project Management Principles and Foundations
- Select 3 credit points of any level 5 LB prefix subject

### Career Prospects:

The program is designed for prospective students who are keen on creating new businesses, either as stand-alone new firms or as part of existing organisations' new business growth plans. Students will be exposed to latest trends, tools, techniques, theories, and practices to identify, refine, incubate and grow their new business ideas.

Post MBA in Entrepreneurship could launch new ventures, take on leadership roles at startup companies, work in corporate entrepreneurship or work at venture capital firms.

## Finance

(4 subjects)

- International Finance
- Corporate Finance
- Advanced Investment and Portfolio Analysis
- Advanced Financial Risk Management

### Career Prospects:

The program imparts an in-depth exploration of core areas of finance, such as financial planning and analysis, foreign exchange risk management, fund positioning and budgeting, international financial management, navigating IPOs and mergers and acquisitions, and financial derivatives.

Post-MBA in Finance can work in various fields such as investment banking, financial statement reporting and analysis, hedge fund management, international finance, asset management, management accounting and insurance management.

## Global Talent Management

(4 subjects)

- Leading and Managing Organisational Change
- Contemporary Issues in Human Resource Management
- HR Analytics and Decision Making
- Performance Management and Appraisal

### Career Prospects:

Nations are racing intensely to gain a competitive edge by investing in innovative and sustainable global talent development and management. The program equips students with HR professional knowledge and practical tools, HR ethics and social responsibility, global vision, and team building and problem-solving abilities.

The program welcomes not only those who study/work in the HR sector—employers, managers, and professionals but also those who are interested in the field of HR and for those with an interest in managing/communicating with people.

## MICE, Tourism and Hospitality

(4 subjects)

- Tourist Management Strategies
- Tourism Systems Analysis
- Tourism and Hospitality Operations Management
- Meetings, Incentives, Conferences and Events (MICE)

### Career Prospects:

The program provides students with an international vision of the tourism industry, the analytical tools and creative solutions for executives in tourism and hotel companies and MICE sector.

Post-MBA in MICE, Tourism and Hospitality will have the skills and knowledge to better manage their work or to change to one which is in the hospitality, tourism and travel industry.

## General Stream

(4 subjects)

- 2 subjects (6 credit points) of any level 5 subjects
- ... + .....
- Select 2 subjects (6 credit points) of level 5 from major subjects

# Entry Requirements

---
