## WHY STUDY HEALTH MANAGEMENT AT RSU?

- Joint degree programme designed and offered collaboratively by two universities
- Diplomas recognised world-wide
- More than 30 years of experience in educating international students
- Multicultural study environment
- Studies organised in module system and small groups
- Professional placement in a leading healthcare company

*I consider the course as a challenging approach in multicultural environment, pushing to constant personal improvement. It helps to take a position in further expectations and to make a link between personal experience and academic environment.*

*Sergei,  
student from Moldova*

*Global challenges in healthcare require new knowledge not only in medicine, but also in the management of the healthcare sector and health institutions. The Health Management Master's programme provides knowledge and skills essential for your future career in health policy and administration, health economics or healthcare institution management. Teamwork, a broad professional approach and efficient and knowledgeable leaders are the keys to success in the future of the healthcare sector.*

*Daiga Behmane,  
Director of Master's programme "Health Management"*

*I have done my Bachelor's degree in Cardiac Perfusion Technology, where I was well clinically exposed in the field of medicine but I felt it was necessary for me to add some knowledge of management to my medical background. I looked through many universities in Europe and found RSU to be one of the better options for my further studies. My decision to study at RSU never let me down because of the quality of education this university provides.*

*Britto Chacko,  
student from India*
